

# Qoltec Courier Label Printer | Thermal | 36–110 mm | 203 dpi | 150 mm/s | USB | Bluetooth | App

**Product code: 50330**

The Qoltec thermal label printer is a practical solution that streamlines daily operations in online stores, warehouses, offices, and retail locations. It allows for quick printing of shipping labels, address labels, price tags, and barcodes without the need for ink or toner. Wired and wireless connectivity, intuitive operation, and the ability to print labels in various sizes ensure convenience and flexibility. Dedicated Qoltec software allows for convenient label printing from computers and mobile devices.

## MORE PRINTS, LOWER COSTS

Fast and precise printing without ink or toner

The Qoltec printer uses direct thermal printing technology, which eliminates the need for ink, toner, and ribbon, reducing operating costs. Print speeds of up to 150 mm/s allow for efficient processing of a larger number of prints, while a resolution of 203 dpi ensures the legibility of text, barcodes, and QR codes. The print head, with a lifespan of 50 km, is designed for daily use.

## PRINTING AT YOUR FINGERTIPS

Flexible Connectivity and Dedicated Qoltec Software

Use the printer however you like—via a computer or directly from your smartphone. The USB interface allows for a wired connection, while Bluetooth technology provides the convenience of wireless printing from mobile devices.
The dedicated Qoltec Label Printer software for Windows allows you to print PDF and ZPL files as well as images, automatically adjust the print output to the label size, preview before printing, and configure print settings. The automatic print function for files from a selected folder further streamlines your daily work.
The Qoltec mobile app for Android, on the other hand, allows you to print labels directly from your smartphone, including from courier apps.
Both solutions are available free of charge.

## FLEXIBILITY THAT MAKES A DIFFERENCE

Various label formats and smart calibration

Support for paper widths ranging from 36 to 110 mm allows you to adjust the label format to your current needs. The printer supports both rolls loaded inside the device and labels fed from the outside. An adjustable paper guide, automatic detection of gaps between labels, and a smart calibration feature make it easy to position the material correctly and prepare the device for printing.

## YOUR PARTNER IN YOUR DAY-TO-DAY WORK

Tailored to the needs of e-commerce and logistics

The Qoltec printer supports the popular 100  150 mm courier label format used for marking shipments. Dedicated Qoltec software allows for convenient printing of labels generated by courier services and online stores. It's a practical solution that simplifies package preparation, streamlines order fulfillment, and saves time during daily shipping operations.

One device, many possibilities

The Qoltec printer is a practical tool that supports inventory management, product identification, and the organization of warehouse and office space. It's perfect for printing:
- product and price labels,
- barcodes and QR codes,
- warehouse labels,
- ID tags.

Its versatility makes the device a functional asset for brick-and-mortar stores, warehouses, service centers, and offices.

## TRUST BACKED BY A GUARANTEE

This product comes with a 24-month warranty
You care about the quality of the product you buy, which is why our designs and solutions are focused on meeting your expectations. Each thermal printer we offer is covered by a 24-month warranty from the date of purchase.
