Qoltec Mount shelf for RACK | 490 * 250

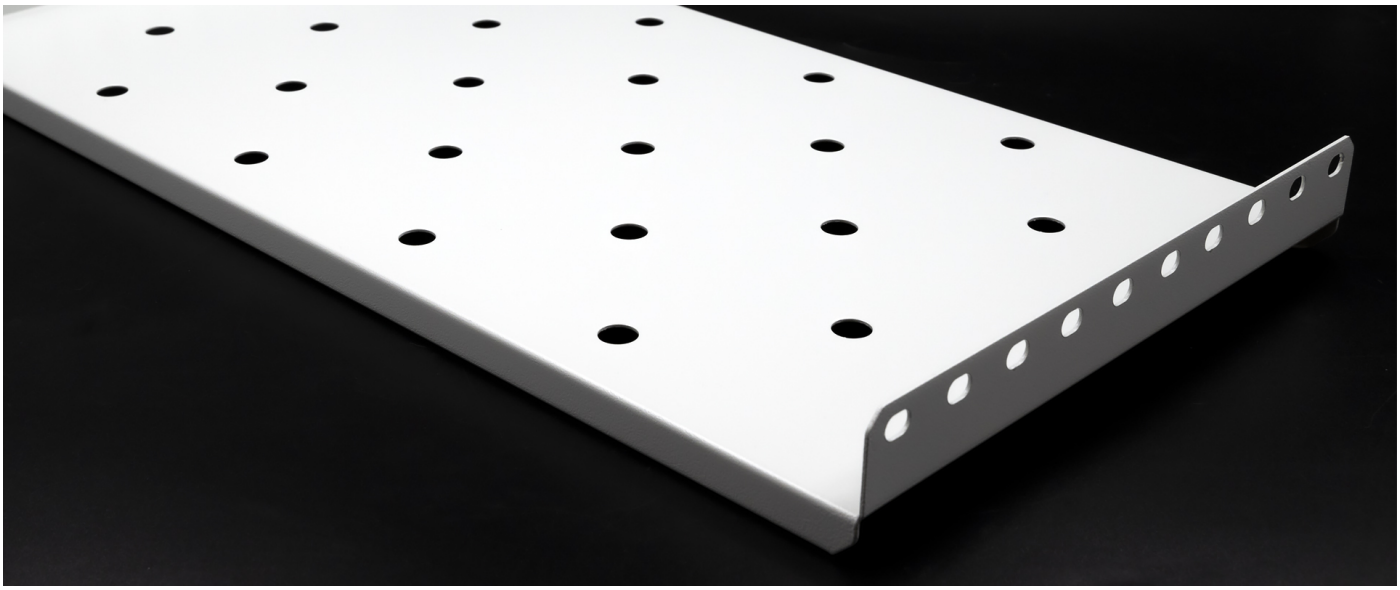
Product code: 54502

Qoltec Mount shelf is the basis for the installation of electronic devices in 19-inch telecommunication cabinets.

PRECISION MANUFACTURING

The rack installation shelf is made of **high-quality cold-rolled steel**. Because the sheet metal is perforated, it provides fresh air to the unit and allows the heated one to escape, reducing the risk of faults and loss of system performance.

HIGH DURABILITY AND EASY INSTALLATION



The presented model is distinguished not only by its exceptionally solid workmanship, but also features reliable durability. With an even distribution of the load over the entire surface of the shelf, its **load capacity is as high as 20 kg**. It is equipped with arms that allow fixing in 4 points in the rack.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our suggestions will meet your expectations. Each of the shelves we offer for Racko'wych cabinets is covered by a **24-month warranty** valid from the date of purchase.
