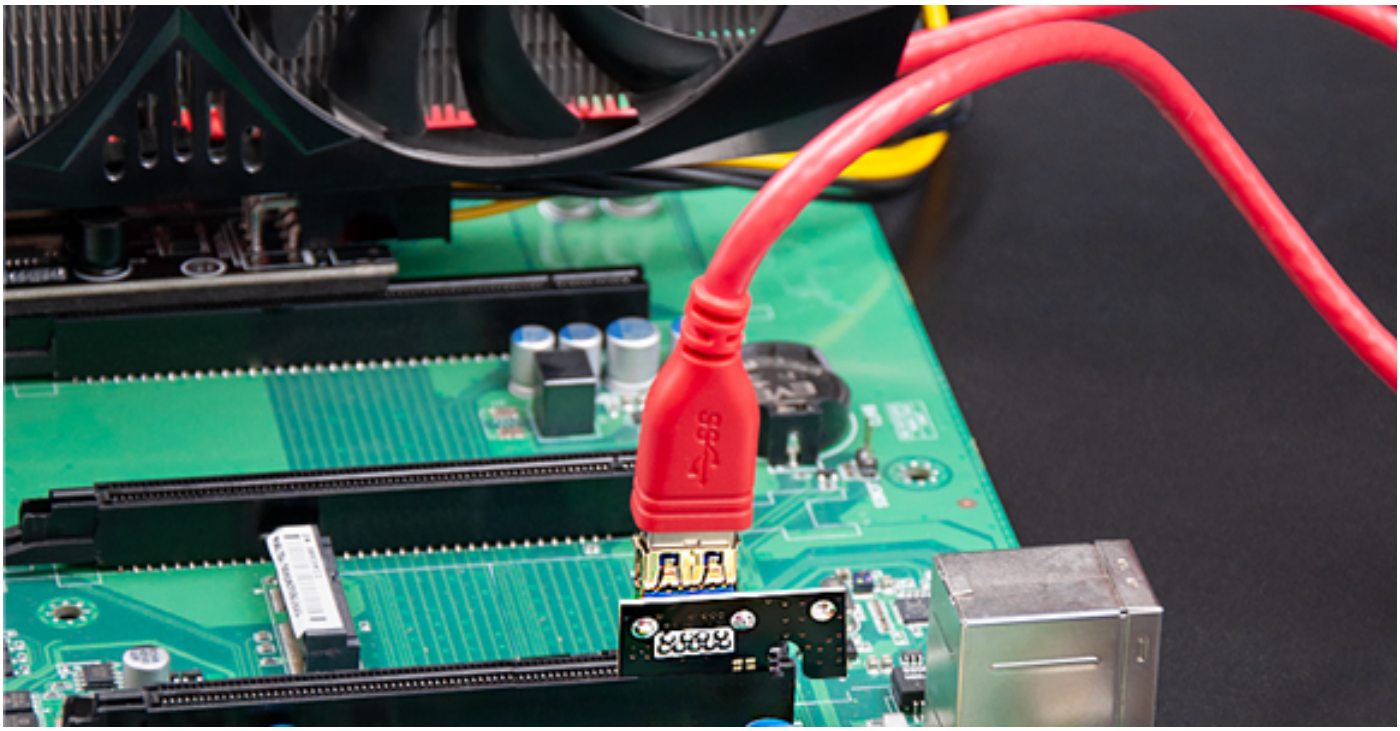
Qoltec Riser PCI-E 1x - 16x | USB 3.0 | ver. 009S Plus | SATA / PCI-E 6 pin

Product code: 55508

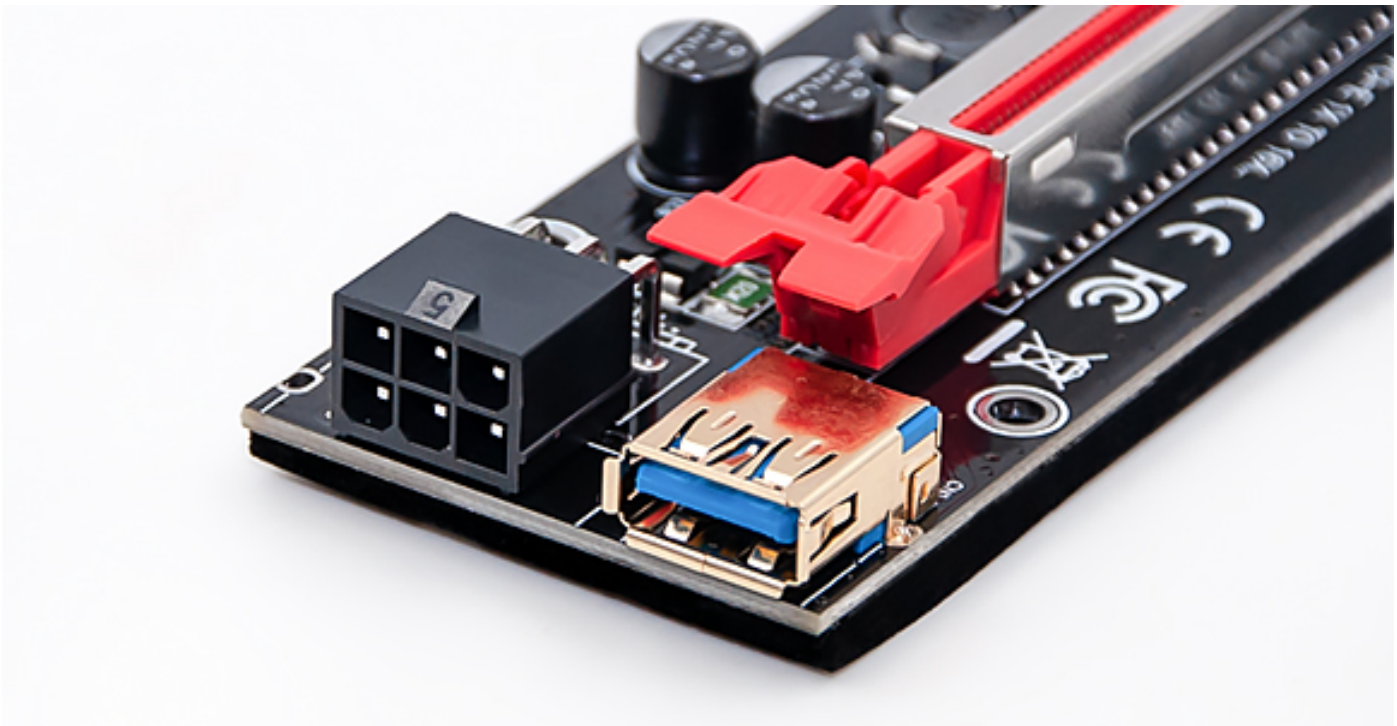
Riser PCI-E 1x-16x guarantees more stable operation of cryptocurrency miners. It is made of a female PCI-E 16x socket, a USB cable, a male PCI-E 1x socket, a PCI-E / SATA cable and a 6PIN plug that allows you to connect additional power to the card, thanks to which we can reduce the load on the motherboard and avoid burned paths during simultaneous operation of multiple graphics cards. This is the cheapest way to improve ventilation and allows you to use all available PCI-E 1x slots at the same time.

STABLE OPERATION AT HIGH TEMPERATURE



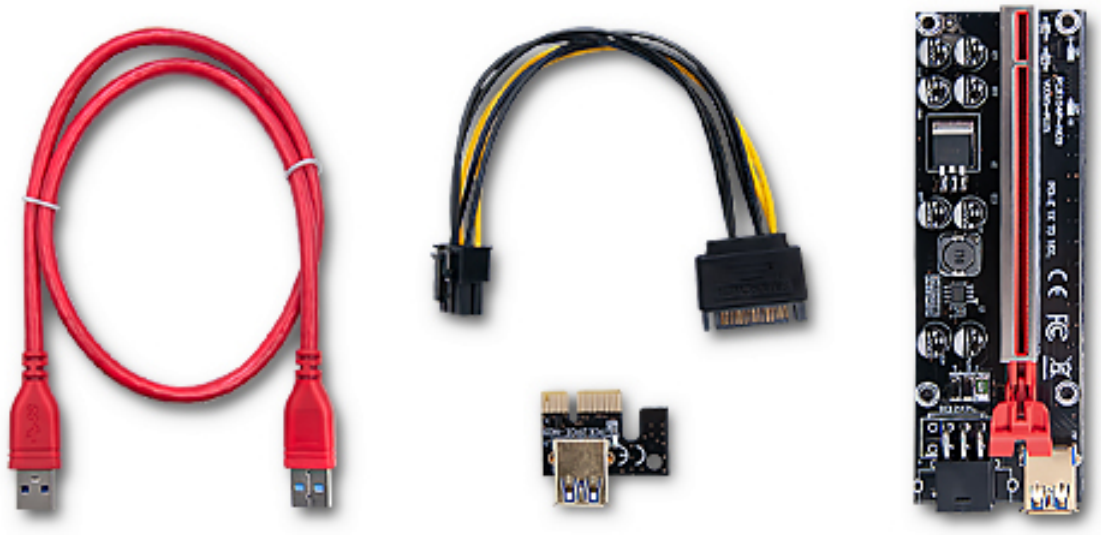
Stable and efficient work is a key feature in crypto excavators. Thanks to the use of polymer capacitors - Qoltec riser is resistant to high temperatures.
The multifunctionality of the presented model allows it to be used in various types of non-standard open-case enclosures, or in 1U and 2U rack enclosures, moreover, it does not require any configuration.

PLUS VERSION - WE WANT TO MEET YOUR REQUIREMENTS



Modern crypto excavators are a real challenge for electronic equipment - in the interest of your comfort of use, we try to improve our models.
The **009S Plus** version of the presented Riser has a reinforced **PCI-E 16x** port and a blockade for trouble-free assembly and disassembly of the graphics card, which will not fall out of the slot, thus protecting the motherboard. An additional advantage is the doubled number of capacitive polymer capacitors, thanks to which the power supply of graphics cards is safe and stable.

GET EXTRA SPACE



The presented model is also used in desktop computers as an additional module that allows you to connect the computer component to the motherboard.
It is a practical solution that allows you to avoid a drop in performance and tedious work of the computer, and you will gain not only additional, organized space in your PC, but also improving ventilation and extending the distance between the motherboard and a graphics card or other computer component.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. The PCI-E risers we offer are covered by a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Usage	Cryptocurrency miners, PC
Version	009S Plus
Interface	PCI-E 16x female - PCI-E 1x male (compatible with 16xPCI-E)
Additional information	The 009S Plus version has an additional reinforced PCI-E 16x port and additional polymer capacitors.
Colour	Black, red
Dimensions (D/L x W x H)	23 x 125 x 43 mm
Package contents	16 x PCI-E adapter 1 x Riser PCI-E 1 x USB 3.0 cable (0.6m) 1 x SATA / PCI-E 6 pin cable
Package depth / length [mm]	151
Package width [mm]	10
Package height [mm]	201
Gross weight [kg]	0.1010
Net weight [kg]	0.0956
Warranty	24 months
EAN code	5901878555089
