

Qoltec 4G LTE antenna with magnetic base | 5dBi | indoor | omnidirectional |600-2700 MHz | SMA | 3m

Product code: 57058

The 4G LTE omnidirectional antenna with 5 dBi gain has been designed as a compact and effective solution to improve the stability and quality of mobile network signals. Thanks to its 360 design, the antenna receives signals from all directions. Equipped with an SMA (male) connector. Magnetic base.

BOOST YOUR SIGNAL

Frequency Range 600-2700 MHz

The 4G LTE omnidirectional antenna with 5 dBi gain is designed to improve the quality and stability of your mobile network signal. Thanks to its omnidirectional (360) design, the antenna receives signals from all directions, making it ideal for locations where the base station is not visible or the signal reflection direction changes. **The wide operating range of 600-2700MHz** covers the most important LTE bands used in Poland and Europe, including B28, B20, B3, B1 and B7, ensuring high compatibility with stationary and industrial routers as well as IoT devices.

MAXIMUM INTERNET SPEED WITHOUT DEAD ZONES

High Gain 5dBi, Strong Signal
The 4G LTE antenna was designed to improve the quality of your internet connection at home, in the office, and in any other room with internet access. It increases transmission stability, improves download and upload speeds, and has a positive effect on overall internet performance. **IP67 rating**, combined with resistance to various weather conditions, can ensure connection stability even in difficult weather conditions.
Our solution offers:
- 4G LTE support – transmission speeds up to 600 Mbps,
- wide frequency range of 600-2700 MHz,
- SMA connector – wide compatibility with routers and mobile devices,
- modern design – thanks to the use of high-quality materials and attention to detail.

THE LATEST TECHNOLOGY WITHIN YOUR REACH

Strong magnetic base for stable antenna mounting
The antenna is equipped with a magnetic base that allows for quick and stable mounting on metal surfaces, such as the roof of a vehicle or bodywork components. **A strong magnet ensures a secure hold even while driving, minimising the risk of the antenna shifting or falling off** . Thanks to this solution, installation does not require drilling or the use of additional tools, and the antenna can be easily removed and moved to another location at any time.

CONFIDENCE CONFIRMED BY A WARRANTY

The product is covered by a 24-month warranty.
Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The 4G LTE antenna we offer is covered by a **24-month warranty** valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type antenna	Omnidirectional
Power	50W
Antenna gain	5dBi
Working frequency	600-2700 MHz
Impedance	50
Polarization	Vertical
Antenna connector	SMA
VSWR	2
IP rating	IP 67
Additional information	Before purchasing, it is recommended to check the compatibility of the antenna with the network and frequency band used by your service provider.
OTHER PARAMETERS	
Colour	Black
Material	ABS + plastic
Cable length	3m RG174
Working temperature	-40°C +85°C
Dimensions (D/L x W x H)	30 x 30 x 90 mm
Package contents	1 x Antenna 4G LTE dookólna
Package depth / length [mm]	30
Package width [mm]	80
Package height [mm]	210
Net weight [kg]	0.046
Gross weight [kg]	0.048
Warranty	24 months
EAN code	5901878570587
