Qoltec Solid steel blanking panel for 19" RACK cabinets | 1U

Product code: 54511

The blanking panel is a reliable accessory that perfectly fulfils its function in 19" RACK cabinets. It is designed to cover the free spaces between mounted devices. The panel not only gives an aesthetically pleasing appearance, but also has a beneficial effect on air circulation inside the enclosure.

SUPPORTS OPTIMAL AIR CIRCULATION

Prevents the equipment from overheating by ensuring proper air circulation

The use of a blanking panel not only eliminates empty spaces between the equipment mounted in the cabinet, giving the cabinet a professional appearance, but also promotes optimal air circulation. This ensures that the equipment inside the cabinet maintains the correct temperature, which can contribute to the performance and longevity of the equipment.

SAFE CABLING, PERFECT COOLING

Robust sheet steel housing, aesthetically pleasing design, easy installation and functionality in one

The panel's robust steel construction guarantees durability and reliability. In addition, **the ease of installation** makes the use of this accessory simple and effective. The blanking panel is not only an aesthetically pleasing element, it is also functional, **bringing order to the RACK cabinet and contributing to an optimal working environment for the installed equipment.**

CONFIDENCE CONFIRMED BY A WARRANTY

Product with 24 months guarantee

Do you care about the high quality of the product you buy? Every RACK accessory we offer is covered by a **24-month warranty valid from the date of purchase.**
