

Qoltec Proximity Cards for EV Charging Station | 5 pcs | Hotel, Parking

Product code: 52429

Set of 5 EV cards compatible with Qoltec charging station 52431 enables the user pool to be expanded quickly. Cards are ready to be assigned and easy to integrate into the system. Ideal for efficient access management and supporting a larger number of users.

MORE CARDS, MORE POSSIBILITIES FOR YOUR EV STATION

Five cards ready to be assigned to users

The kit from Qoltec includes **five EV cards**, which allow **rapid expansion of the existing user base** charging stations. With these, you can easily provide access to new hotel guests, company employees or car park customers without having to replace existing cards. **This is ideal for facilities that want to flexibly increase the number of EV station allowances..**

EASY INTEGRATION INTO THE QOLTEC SYSTEM

Ready-made cards for immediate assignment

Set includes EV cards **specially designed to work with Qoltec charging stations**. In order to configure rates and charging parameters, it is necessary to set up one card as administrator, while the other cards are ready to be assigned to users. Thanks to this **adding new cards is quick, simple and intuitive** - requires no additional accessories or complex configuration. **All cards are ready for immediate use**, which allows the system to be expanded quickly and to handle more users efficiently.

SECURE AND CONVENIENT ACCESS FOR NEW USERS

Control and comfort in one package

Expanding the card pool allows you to retain full control of the station, while enhancing the experience for new users. **The administrator can deactivate or modify the access of user cards at any time.**, providing security and management flexibility. The set of five Qoltec cards are **a practical solution for hotels, companies and commercial premises**, who want to increase the number of active EV cards quickly and efficiently.

TURN CHARGING INTO AN ADDITIONAL SOURCE OF PROFIT

Comfort for customers, revenue for you and the operator

An EV charging system in a hotel, car park or shopping centre is **a an investment that starts earning from day one**. It gives customers convenience and modern amenities, while opening up a new source of revenue. **Each charging session can generate a profit - both for the facility owner and the external operator**, if it manages the infrastructure. This is a solution that increases the attractiveness of the location, attracts new visitors and maximises the potential of the growing electromobility market.

CONFIDENCE BACKED BY A GUARANTEE

Product with 24 months guarantee

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The chargers we offer are covered by **24 month guarantee** effective from the date of purchase.
