WE COMBINE ROBUSTNESS WITH DESIGN - ELEGANCE IN TECHNOLOGY

Perforated bottom for better heat dissipation

The robust pull-out shelf designed for rack mounting has been manufactured from **high-quality cold-rolled steel.** The perforated bottom of the shelves is designed to effectively dissipate heat from the equipment, which contributes to their optimal operation even under intensive loads. Qoltec RACK shelves are a **guarantee of durability, stability and robustness, meeting the requirements of the most demanding ICT installations.** It is perfect for professional installations, offering not only security but also convenience.

HIGH QUALITY WORKMANSHIP COMBINED WITH FUNCTIONALITY AND AESTHETICS

Robust sheet steel housing, aesthetically pleasing design, easy installation and functionality in one

The model presented here is not only distinguished by its exceptionally solid workmanship, but also features reliable durability. With the load evenly distributed over the entire surface of the shelf, its **load capacity is as high as 20 kg. Equipped with arms that allow fixing from both the front and rear, in 4 points.** This not only increases stability, but also makes the shelf versatile and easily adaptable to different mounting configurations. The aesthetically pleasing design of the shelf makes it not only perfect for its practical function, but also an aesthetically pleasing part of any ICT cabinet. Easy assembly is another feature that makes it possible for the user to adapt the shelf to their needs quickly and efficiently.
