

Qoltec Solid steel patch panel for 19" rack | 24 ports | 1U | UTP | Black

Product code: 54516

The Qoltec patch panel is a reliable solution for the organisation and management of RJ45 cables. Port numbering and special holders on the back of the panel make cable organisation easy and intuitive. With this advanced accessory, you can easily connect and switch active network devices such as switches, routers, multiswitches, cameras and other electronic devices. The panel fits perfectly in 19" rack cabinets and standard 1U high brackets.

MAKE CABLE MANAGEMENT SIMPLER THAN EVER

Safe space, quick access to equipment, easy maintenance

The installation of cables in a 19" rack is an important stage in the design of an IT infrastructure, as **correct cable management, not only affects the aesthetics of the interior, but also performance, access to equipment and ease of maintenance**. Properly organising cables using patch panels helps to avoid tangles and accidental cable damage. When the cables are organised, it is much easier to identify the source of the problem, speeding up the process of fault diagnosis and repair. **With multiple sockets for RJ45 connectors, the patch panel provides a central point for managing your connections while ensuring easy identification and organisation of your cables**. The product is designed to help you create a secure space in your server room.

ORGANISE A SAFE SPACE - ENSURE OPTIMAL WORKING CONDITIONS FOR EQUIPMENT

Robust steel construction, aesthetics in detail, 24 ports divided into 6-module sections

The product's strengths are its **robust construction, stylish design and universal black colour**. The panel fits perfectly into 19" racks and standard 1U high brackets. Organised cables can be arranged in a way that is consistent and symmetrical, which contributes to the aesthetics of the entire rack. **The 24 ports are divided into four 6-module sections for easy connection management and cable identification**. Port numbering and special holders on the rear of the panel make cable organisation easy and intuitive. The lack of accidental cable confusion makes the entire infrastructure look professional. **The Qoltec patch panel is not only a high-quality product, but also functional and easy to use, which is sure to meet the expectations of even the most demanding users**.

CONFIDENCE CONFIRMED BY A WARRANTY

Product with 24 months guarantee

Do you care about the high quality of the product you buy? Our proposals will meet your expectations. Each of the patch panels we offer is covered by a **24-month warranty valid from the date of purchase**.

TECHNICAL DATA

Producer	Qoltec
Number of ports	24
