

Qoltec Power strip with backlit switch | 4-in-1 extension lead | 4 earthed sockets | 1.8m

Product code: 52760

The power strip allows devices to be connected simultaneously to up to 4 Type E AC sockets fitted with an earth pin. The sockets have a maximum power rating of 3680 W at 230 V and 16 A. The built-in switch allows you to disconnect all devices connected to the power strip from the mains in a single action. The casing, made from a material with a high fire resistance rating, enhances safety during use.

ONE STRIP, MANY POSSIBILITIES

Convenient power supply for several devices at once

The Qoltec power strip is a practical solution for the home, office and computer workstation. Equipped with 4 Type E (French) mains sockets, it allows several electrical devices to be connected simultaneously, providing convenient access to power in one place. It is ideal for use with, amongst other things, a computer, monitor, printer, television, audio-visual equipment or other everyday appliances. The well-thought-out layout of the sockets makes it easier to organise your workspace and helps to reduce the number of separate extension leads.

Maximum power of 3680 W – efficient power supply

The power strip operates at 230 V AC, supports a current of up to 16 A and provides a maximum power of 3680 W. It allows you to conveniently power several devices simultaneously, provided their combined power does not exceed the permissible limit. It is ideal for computer equipment, audio-visual equipment and office equipment.

POWER SWITCH – QUICK POWER CHECK

Backlit switch

The built-in switch allows you to conveniently switch off the power to connected devices without having to unplug them from the sockets. This simple solution enhances the convenience of everyday use and allows you to quickly control the power supply to the entire set of devices.

Child safety feature

The sockets are fitted with a safety feature to prevent children from accidentally coming into contact with live parts. This feature enhances the safety of using the power strip at home and in other places where children may be present.

AN ELEGANT DESIGN CREATED WITH YOUR COMFORT IN MIND

Modern design and compact construction

The power strip stands out thanks to its modern, sleek design and the elegant combination of a dark casing with contrasting green elements. The vertical arrangement of the sockets gives the power strip an attractive appearance and ensures it takes up minimal space on a desk or workstation. The rounded edges and the switch lend the design a cohesive and modern look, allowing the power strip to blend in well with both home and office furnishings.

Durable PP casing

The power strip's casing is made of polypropylene (PP), which ensures adequate durability during everyday use. The design combines functionality with versatility for use in both home and office environments.

YOUR SAFETY AND THAT OF YOUR LOVED ONES IS IMPORTANT TO US

Our safety measures

To ensure your safety and that of other users of devices connected to the power strip, we have fitted it with the following safety features:

- protective covers on all sockets to provide **child safety** – this is particularly important in places where children are an integral part of daily life,
- made from **non-flammable PP material**

TRUST CONFIRMED BY WARRANTY

This product comes with a 24-month warranty

Do you want to be sure of the high quality of the product you're buying? Our solutions will meet your expectations. Every strip comes with a 24-month warranty from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Number of sockets	4pcs.
Rated voltage	230VAC
Rated current	16A
Sockets	4 x Type E French
Plug	European
Maximum load	16A / 230V / 3680W
Frequency	50Hz
Data line protection	No
Cross-section of a vein	3 1,5 mm (3G1,5 mm)
Switch	Illuminated Quick Switch
Quick Switch (backlight colour)	Blue
Safety	- child safety lock - earthing
Additional information	- housing made of PP (polypropylene) - protection rating: IP20
OTHER PARAMETERS	
Colour	Grey, green
Material	Polypropylene (PP)
Dimensions (D/L x W x H)	260 x 55 x 40 mm
Package contents	1 x Power strip 1 x User manual
Package depth / length [mm]	300
Package width [mm]	105
Package height [mm]	45
Net weight [kg]	0.382
Gross weight [kg]	0.448
Warranty	24 months
EAN code	5901878527604
