

Qoltec Solid Steel Cable Organizer for 19" racks | 24 ports | 1U

Product code: 54514

The use of a cable organiser in a 19" rack helps keep things tidy and provides easy access to individual cables for easy identification and to speed up the process of possible replacement or repair.

MAKE CABLE MANAGEMENT SIMPLER THAN EVER

Safe space, quick access to equipment, easy maintenance

The installation of cables in a 19" rack is an important stage in the design of an IT infrastructure, as **correct cable management not only affects the aesthetics of the interior, but also performance, access to equipment and ease of maintenance** . Properly organising cables using organisers helps to avoid tangles and accidental cable damage. When cables are organised, it is much easier to identify the source of the problem, speeding up the process of fault diagnosis and repair. The presented organiser is designed to help you create a secure space in your server room.

VISUAL HARMONY, TECHNOLOGICAL EFFICIENCY

Robust steel construction, aesthetics in the details

Additional advantages of the Qoltec cable organiser are its **sturdy construction, stylish design and universal black colour** , which will easily fit into your room. The organised cables can be arranged in a way that is consistent and symmetrical, which contributes to the aesthetics of the entire rack. **The lack of accidental cable clutter makes the entire infrastructure look professional**.

CONFIDENCE CONFIRMED BY A WARRANTY

Product with 24 months guarantee

Do you care about the high quality of the product you buy? Every RACK accessory we offer is covered by a **24-month warranty valid from the date of purchase**.
