

Qoltec Battery Charger for Ni-MH type R03 AAA R6 AA

Product code: 50653

Intelligent microprocessor-controlled charger for Ni-Cd and Ni-MH batteries type R03/AA R6/AAA, perfect for all users of rechargeable batteries. It can charge 1, 2, 3, or 4 batteries simultaneously. It features quick recognition of battery charge status and automatic termination of charging when the battery is fully charged. You can rest assured that your batteries are always ready to use, and the charger operates efficiently and safely. The specially designed mechanism allows for easy insertion and removal of batteries.

ENSURE THE LONG-LIFE EFFICIENCY OF YOUR BATTERIES

INDIVIDUAL CHARGING CHANNELS

Individual handling of each cell, monitoring of charge status, automatic termination of charging upon reaching full charge

Our charger is equipped with high-quality overcharge protection, ensuring the safety and long-term performance of your batteries. With an innovative charging system, the charger individually handles each cell, monitoring its status and automatically stopping charging before overcharging occurs. This intelligent feature provides optimal charging conditions for each battery, protecting them from damage and extending their lifespan, allowing you to enjoy reliable power for a long time.

GIVE YOUR DEVICES A SECOND LIFE - TRUST OUR BATTERY CHARGER

Possibility to charge 1, 2, 3 or 4 batteries simultaneously, LEDs in each socket

- Individual handling of each cell,
- Capability to charge 1, 2, 3, or 4 batteries simultaneously,
- Direct plug-in to the socket,
- Specially designed sockets enabling easy insertion and removal of batteries,
- Automatic termination of charging upon reaching full charge,
- LED indicators in each socket indicating the charging status,
- Efficient and safe - short-circuit protections.

DESIGNED FOR COMFORT AND FUNCTIONALITY

The thoughtful design enables easy insertion and removal of batteries

Thanks to its lightweight construction and compact size, the AA and AAA battery charger can be easily taken anywhere, providing a reliable power source both while traveling, at work . Regardless of location and situation, you can be sure that you will always be able to charge your batteries, ensuring the continuous operation of electronic devices. The thoughtful design not only prevents batteries from falling out but also facilitates easy insertion and removal of batteries.

CONFIDENCE CONFIRMED BY A WARRANTY

The product is covered by a 24-month warranty

Do you value high-quality products? Our solutions will meet your expectations. Each of our chargers comes with a **24-month warranty from the date of purchase**.

TECHNICAL DATA

Producer	Qoltec
Type	Rechargeable Battery Charger
Battery capacity	AA (1000-3000mAh) AAA (500-1000mAh)
Input	220 – 240 V
DC output	1.2V
Battery charging current	300mA
Number of batteries	Charger for up to 4 Rechargeable Batteries
Compatibility	Ni-MH, Ni-Cd, R6/AA, R03/AAA
Power cable	Cable-Free
Protection	Overcurrent Overvoltage
Additional information	Plugs directly into a power socket To initiate the charging process, insert the batteries according to their polarity
OTHER PARAMETERS	
Colour	Black
Material	ABS + plastic
Operating temperature	0°C ~ +35°C
Storage temperature	-25°C do +60°C
Storage humidity	85%
Dimensions (D/L x W x H)	85 x 61 x 93 mm
Package	Box
Package contents	1 x Battery Charger
Package depth / length [mm]	52
Package width [mm]	66
Package height [mm]	125
Net weight [kg]	0.088
Gross weight [kg]	0.100
Warranty	24 month
EAN code	5901878506531
