

Qoltec EM 125 kHz proximity tag | 10pcs.

Product code: 52454

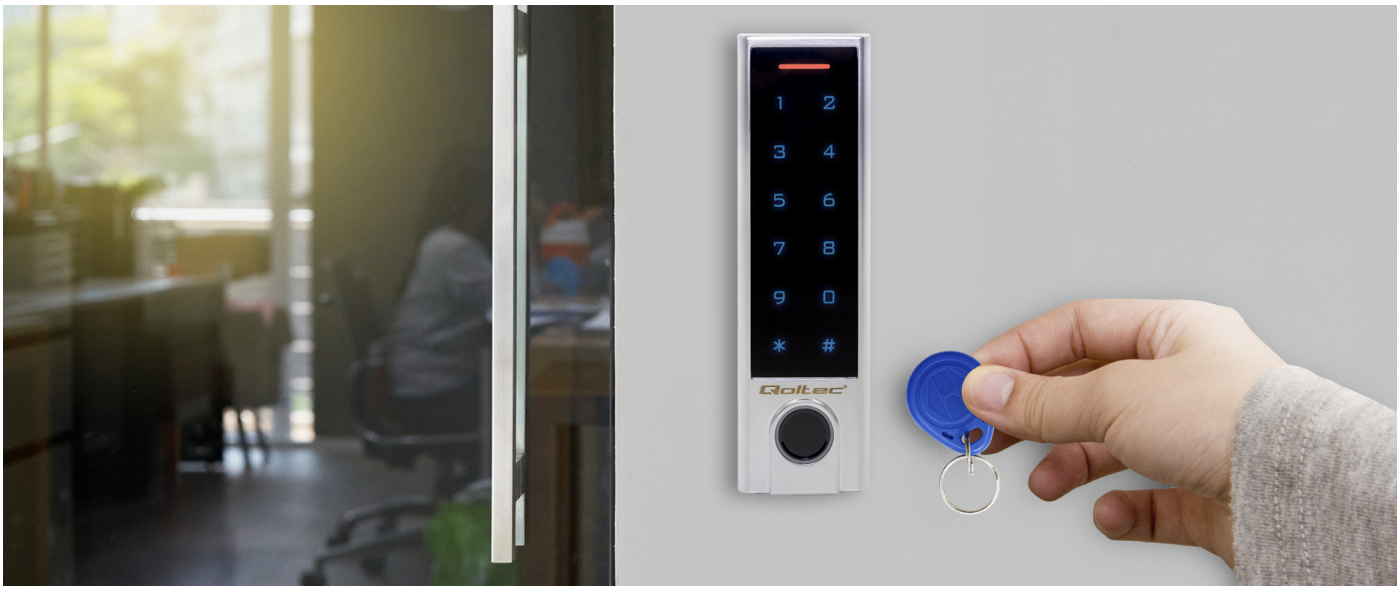

Proximity key fob compatible with 125 kHz EM readers. Used for unlocking a security device such as a code lock. Each key ring is protected with invariable individual code read by the reader when the key ring is in its range . The product is characterized by high mechanical strength .
The set includes 10 pieces.

PROXIMYTY TAG EM 125 KHZ

Qoltec's EM 125 kHz proximity key fob is compatible with most devices compatible with the 125 kHz EM communication standard. It has a built-in microprocessor, memory and antenna. It is used to unlock security access to a building or protected facility. It is also used for time registration.
Each product is protected by an invariable individual code read by the reader when the key fob comes within its range, allowing access only to authorised persons. The reader verifies the information encoded on the key fob before unlocking access. Reading the information is wireless by electromagnetic induction.
The product is characterised by high mechanical strength . We offer 10 pieces in a set.

COMPACT SIZE - CONVENIENCE OF USE

The Qoltec brand key fob can replace a proximity card. Constructed from high-quality materials, it features high mechanical resistance. Furthermore, its compact size allows it to be placed on a key ring, for example.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. The product comes with a 24-month warranty valid from the date of purchase.
