

Qoltec External USB 3.0 9.5mm SATA Optical Drive Case | built-in cable

Product code: 51865

A modern external pocket for a CD / DVD drive with a built-in cable with a USB plug allows you to connect the drive to a PC or laptop. Our device offers:

- compatibility with Windows, Mac and Linux systems,
- support for USB 3.0 and SATA standards,
- Plug & Play interface

BIGGER CAPACITY FOR MORE POSSIBILITY

Electronic devices, especially PCs and laptops, have revolutionized our lives. We use them every day at work and at home. You watch movies, family photos, listen to music with friends, or prepare a presentation for school or work.

We store many files on CD / DVD media, but modern computers are not always equipped with a drive that allows you to read files, so the Qoltec pocket will be the perfect solution, thanks to which you can install a disk drive for reading files.

COMPACT SIZE, EXTREME MEMORY

The CD / DVD optical drive compartment allows you to quickly and safely transfer and connect the device to a standard computer or laptop. Our device offers:

- compatibility with many Windows, Mac and Linux systems,
- support for USB 3.0 and SATA standards,
- ease of use provided by the Plug & Play interface,
- designer look thanks to a thin and stylish housing.

CONFIDENCE CONFIRMED BY A WARRANTY

If you value the quality of purchased equipment our projects and solutions are focused on meeting your expectations. Qoltec optical drive case is covered by 24 months warranty.
