

Qoltec 4-in-1 Multifunctional Jump Starter | 1000A | 12,000mAh Power Bank | 10bar Air Compressor | LED Torch | USB

Product code: 52819

The Qoltec multifunctional jump starter, featuring a compressor, power bank and LED torch, is an indispensable companion when travelling and in emergencies. With a peak current of 1000A, it enables quick starting of vehicles with a 12V system, whilst the built-in compressor, with a pressure of up to 10bar (150 PSI), allows you to conveniently inflate car, motorbike and bicycle tyres, as well as balls. Equipped with a 12,000mAh battery, an easy-to-read digital display and a practical LED torch, it offers versatility, convenience and safety in a single compact device.

RELIABLE STARTUP IN UNEXPECTED SITUATIONS

Road Independence – Support for Gasoline Engines up to 5.0L and Diesel Engines up to 3.0L

A dead battery doesn't have to mean a forced stop or the need to call roadside assistance. The Qoltec Jump Starter, with a 300A cranking current, lets you start your vehicle on your own without needing another car. Simply connect the jump starter clamps to the battery, ensuring the correct polarity, to prepare the vehicle for restarting. This solution is particularly useful during long trips, daily commutes to work, or when parked in areas far from technical assistance.

PRECISE PUMPING AND FULL CONTROL OVER PARAMETERS

4 operating modes – convenient inflation tailored to your needs

The built-in 100W compressor offers four dedicated inflation modes with factory-set pressure values that can be adjusted to your individual needs. Once the selected level is reached, the device automatically stops, eliminating the need to constantly monitor the process. This is a convenient solution for inflating car, motorcycle, and bicycle tires, as well as balls.

Available inflation modes:

- Car – 36 PSI / 2.5 BAR

- Motorcycle – 33 PSI / 2.3 BAR

- Bicycle – 30 PSI / 2.1 BAR

- Ball – 8 PSI / 0.55 BAR

Full control over settings and convenient operation

The built-in digital display provides clear access to key information, such as current pressure, selected operating mode, and battery charge level. The ability to choose from four pressure units—BAR, PSI, KPA, or KG/CM —allows you to customize the data display to your preferences. Intuitive operation makes it easy to set the appropriate parameters and control the device's operation.

EXTRA ENERGY, ALWAYS AT YOUR FINGERTIPS

Portable Power Source – Greater Freedom While Traveling

Thanks to its power bank function, the Qoltec Jump Starter is useful not only in emergency situations. With its 5V/2A USB output, you can charge smartphones, tablets, and other compatible mobile devices without having to connect them to your car's electrical system. This is especially useful during trips, camping, or outdoor activities when access to a power outlet is limited. The built-in battery can be conveniently charged via the USB-C port, preparing the device for its next use.

SAFETY AND FUNCTIONALITY IN ONE

Smart safety features and additional emergency lighting

The smart jumper cable with a 5-stage safety system provides protection against short circuits, overheating, overvoltage, excessive current, and reverse polarity. This solution enhances safety when connecting the device to a vehicle's battery. An additional convenience is the built-in LED flashlight, which offers three lighting modes: steady, SOS, and strobe. It makes it easier to work on your car after dark, and the signal modes can come in handy during an unplanned stop or a breakdown on the road.

TRUST BACKED BY A GUARANTEE

This product comes with a 24-month warranty
Do you care about buying a high-quality product? Our solutions will meet your expectations. Each of the jump starters we offer comes with a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Input voltage	5V/2A
DC output	5V
Charge voltage	5V/2A (USB-C)
Charging time	approx. 8 hours
Battery capacity	12000mAh
Starting current	300A
Peak current	1000A
Number of cycles	>300 cycles
Air compressor power	100W
Maximum air compressor pressure	10bar (150PSI)
Pressure units	PSI, BAR, KPA, KG/CM
Supported engines	Petrol engine: up to 5.0L, diesel engine: up to 3.0L
Protection	▪ Short-circuit protection ▪ Reverse polarity protection ▪ Overheating protection ▪ Overvoltage protection
IP Rating	IP50
Usage	lithium-ion (Li-ion) batteries
Additional information	Inflation modes: ▪ car – 36 PSI / 2.5 BAR, ▪ motorbike – 33 PSI / 2.3 BAR, ▪ bicycle – 30 PSI / 2.1 BAR, ▪ ball – 8 PSI / 0.55 BAR.
OTHER PARAMETERS	
Colour	Black, grey
Material	ABS
Dimensions (D/L x W x H)	57 x 108 x 210 mm
Package	Box
Package contents	1 x Jump starter 1 x Jump leads 1 x USB-A/USB-C cable 1 x Compressor cable 1 x Set of compressor nozzles (4 pcs.) 1 x Carrying case 1 x User manual
Package depth / length [mm]	112
Package width [mm]	135
Package height [mm]	248
Working temperature	0 C - 45 C
Net weight [kg]	1.186
Gross weight [kg]	1.280
Warranty	24 months
EAN code	5901878528199
