

Qoltec PoE power adapter| LAN | RJ-45 | 5.5*2.1 mm

Product code: 50579

Qoltec's PoE Power Adapter is an essential component of modern network systems that reduces cable clutter and simplifies access to devices. It allows for simultaneous transmission of power and data, making it ideal for IP cameras, Wi-Fi access points, and VoIP phones. By choosing this adapter, you invest in convenience, space-saving, and installation efficiency, eliminating the need for additional power supplies.

GET MORE WITH POE ADAPTER – SIMPLE, EFFICIENT TECHNOLOGY

Greater Ease of Use with Fewer Cables and Power Supplies Needed

The **PoE power adapter from Qoltec** is an essential component of modern network systems, offering not only space savings but also **enhancing user convenience.** By reducing the number of cables required and enabling easy access to devices in hard-to-reach areas, the **PoE adapter eliminates the need for additional power supplies** . This intelligent solution saves you time, reduces installation costs, and lowers the risk of failure by organizing cabling more effectively. By choosing a PoE adapter, you're investing in convenience and modernity for years to come.

POWER AND DATA IN ONE CABLE: THE IDEAL SOLUTION FOR HOME AND OFFICE

Adapter for Ethernet Power Supply of Devices like IP Cameras, Routers

The Power over Ethernet (PoE) adapter is an ideal solution for locations where access to additional power outlets is limited but network devices need connection, including:

- **- IP cameras,**
- **- Wi-Fi access points,**
- **- VoIP phones,**

With PoE technology, **you can simultaneously transmit power and data through a single Ethernet cable** . It's the perfect support for spaces requiring efficient, reliable, and discreet power solutions. Whether you need to power a security camera or ensure a stable connection for a router, the PoE adapter provides seamless and aesthetically pleasing installation.

PLUG AND FORGET – HOW DOES THE POE ADAPTER WORK?

Step-by-Step Intuitive Installation of Passive Adapter Set

The set includes **two passive PoE adapters** , each featuring an RJ45 port and a DC power connector. One adapter has a male DC plug, and the other a female, making it quick and easy to connect network devices. The installation process is simple:

- **1.** Connect one adapter to the LAN Ethernet port and the power source using the female DC plug.
- **2.** Connect the second adapter to the device requiring power, such as a camera or router.
- **3.** Link both adapters with a UTP Ethernet cable to provide smooth power and data transfer through one cable.

This way, setting up telecom and network devices becomes **intuitive and convenient, eliminating unnecessary cabling** and hassle.

EVERYDAY COMFORT AND RELIABILITY

Durable PVC-Insulated Cable Construction Ensures Safe Use

Opt for a reliable **PoE adapter** that is not only functional but also easy to use. It's designed with your convenience in mind, and with its 10/100 Mbps speed capability, you can trust that your data is transmitted at two levels of speed. This is a solution that lets you focus on work without worrying about power stability.

TRUST CONFIRMED BY WARRANTY

2-Year Product Warranty

Looking for quality assurance in your purchase? **Our solutions meet your expectations.** Each power cable we offer comes with a 24-month warranty from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	PoE adapter
Plug type	2 x RJ-45 DC 5.5*2.1 female DC 5.5*2.1 male
Application	All electrical devices with a compatible socket.
Usage	- IP cameras - Wi-Fi access points - VoIP phones
Additional information	Connection speed: 10/100 Mbit/s
OTHER PARAMETERS	
Colour	Black
Insulating material	PVC
Working temperature	-20 C ~ +60 C
Cable length	2 x 0.17m
Package	Polybag
Package contents	1 x PoE adapter
Package depth / length [mm]	150
Package height [mm]	150
Package width [mm]	50
Net weight [kg]	0.0490
Gross weight [kg]	0.0600
Warranty	24 months
EAN code	5901878505794
