

Qoltec Precision fiber optical stripper

Product code: 54261

The cable and fibre stripper is used to precisely remove insulation from cables and sheaths from fibre optics, without damaging the fibre itself . Requires manual pressure. It has 3 holes of different diameters, allowing the tool to be adapted to different thicknesses and types of fibre optics.

PRECISION AT A HIGH LEVEL - REMOVE INSULATION WITH EASE

Use of precision blades

Safety is an absolute priority when stripping fibre optic cables, which is why the use of high quality fibre tools is key to ensuring not only safety, but the efficiency and reliability of optical networks. Its most important advantage is **the use of precision blades, which allow for accurate cutting while reducing the risk of damage to the fibres themselves**.
The fibre optic cable stripper **has 3 stripping holes of different diameters** . This allows the tool to be adapted to different types and types of fibre optic cables and fibres. The user can precisely cut the insulation on different cable thicknesses without having to use several tools. This increases productivity and makes work easier.

ERGONOMIC AND COMFORTABLE TO USE

Blade lock

With the delicate character of optical fibres, precision in cutting is crucial. Thanks to its ability to cut various cable diameters, the tool is versatile in its application. It can be used when working on different types of telecommunications installations. The ergonomic shape of the tool, made of non-slip material, **provides a secure grip even in damp working conditions, and the lightweight design will allow for longer work without excessive fatigue**. The robust design and high quality materials make the tool durable and resistant to working conditions in a variety of environments. In addition, **the lock knob function protects against accidental locking of the tool during operation**.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you want a high quality product? Our solutions will meet your expectations. The accessories we offer come with a **24-month guarantee** valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Material	Rubber and carbon steel
Additional information	Mechanism of shoulder return lock. It has 3 holes of different diameters. Provides unbreakable clamp.
Colour	Yellow
Dimensions (D/L x W x H)	150 x 62 x 12 mm
Package contents	1 x Precision fiber optical stripper
Package	Blister
Package depth / length [mm]	210
Package width [mm]	82
Package height [mm]	15
Net weight [kg]	0.094
Gross weight [kg]	0.112
Warranty	24 months
EAN code	5901878542614
