

Qoltec Privacy filter for MacBook Air 13.6" | Magnetic | Eye protection

Product code: 51077

The Qoltec privacy filter ensures the security of displayed information, making it visible only to the person directly in front of the screen. Additionally, it offers:

- highest quality material,
- blue light filter,
- anti-reflective coating,
- reduced viewing angle to 60°,
- protection against scratches, dust, and dirt,
- magnetic installation

PRIVACY PROTECTION IN THE DIGITAL AGE

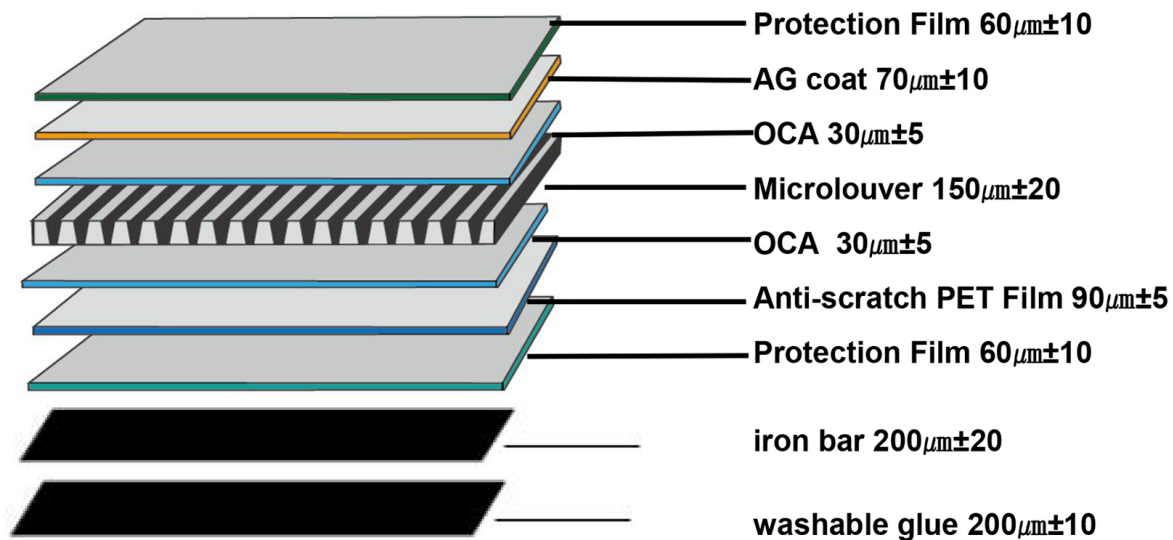

The privacy filter provides protection of confidential data from unauthorized persons

The Qoltec magnetic privacy filter is a protective shield for your privacy in the world of digital information storage. In today's times, where virtual threats are commonplace, maintaining the security of personal data is crucial. No one wants unauthorized individuals to access our information. Additionally, the General Data Protection Regulation (GDPR) is an important consideration that should not be ignored.

That is why privacy filters are becoming an indispensable part of our electronic devices, providing us with peace of mind and a sense of security. They are useful both for fieldwork, in offices, financial institutions, and many other places where confidential information is processed daily.

9-LAYER PROTECTION FOR PROCESSED DATA AND YOUR EYES

The filter consists of 9 layers, including the blockage of harmful radiation and privacy micro-louvers

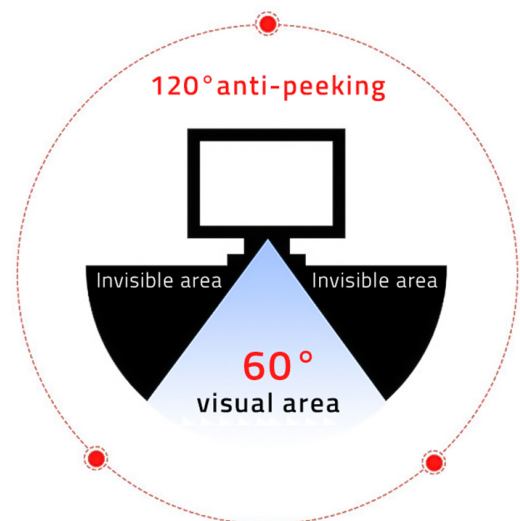

How can an ultra-thin filter incorporate all the functions that we believe a privacy filter should have? Thanks to the 9 layers of which our product is composed, it can simultaneously perform its main task of protecting your privacy and protect your eyes from the harmful effects of radiation from a laptop or computer screen. All this while ensuring the highest possible image quality without distortion. The following paragraphs provide more details about privacy filters.

INNOVATIVE TECHNOLOGY FOR YOUR PRIVACY

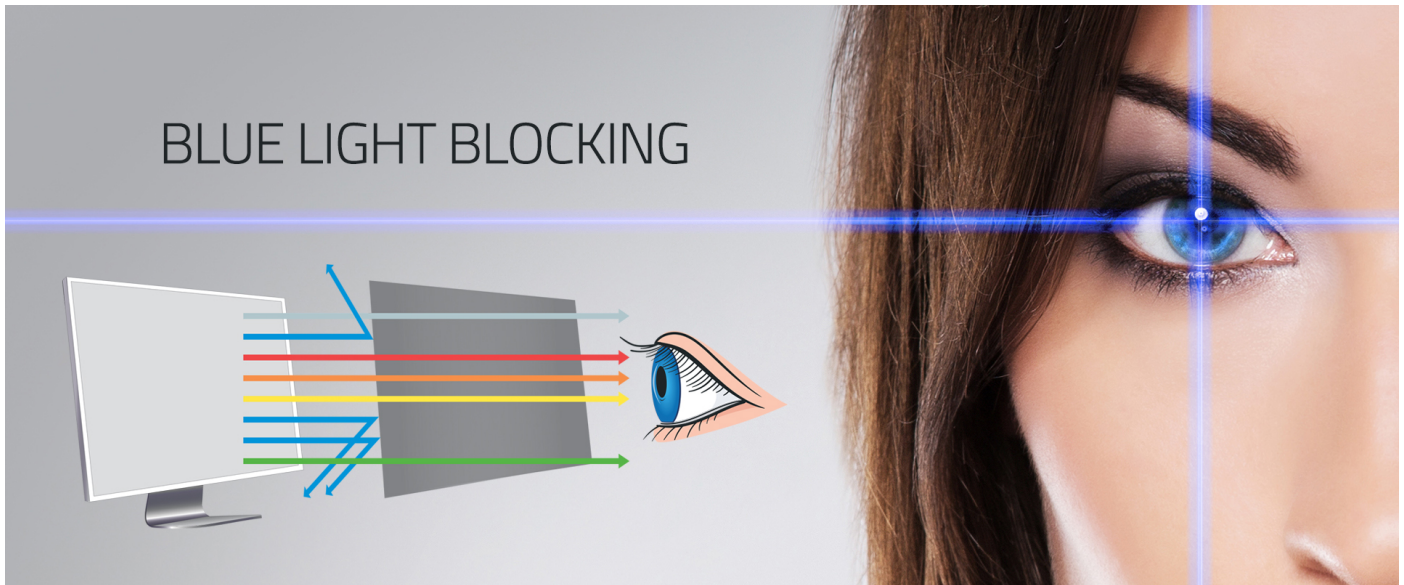

The front is clearly visible

Side 60° peeping to protect privacy

The micro-louver technology is responsible for the narrow viewing angle

The Qoltec privacy filter holds the secret of modern technology that ensures reliable protection. Using advanced micro-louvers, this filter ensures screen readability from the front within a 60-degree width while preventing unwanted side views. Even at a slight angle, the image becomes unreadable, and when the viewing angle reaches 30 degrees, the screen completely darkens, ensuring your privacy in any situation.

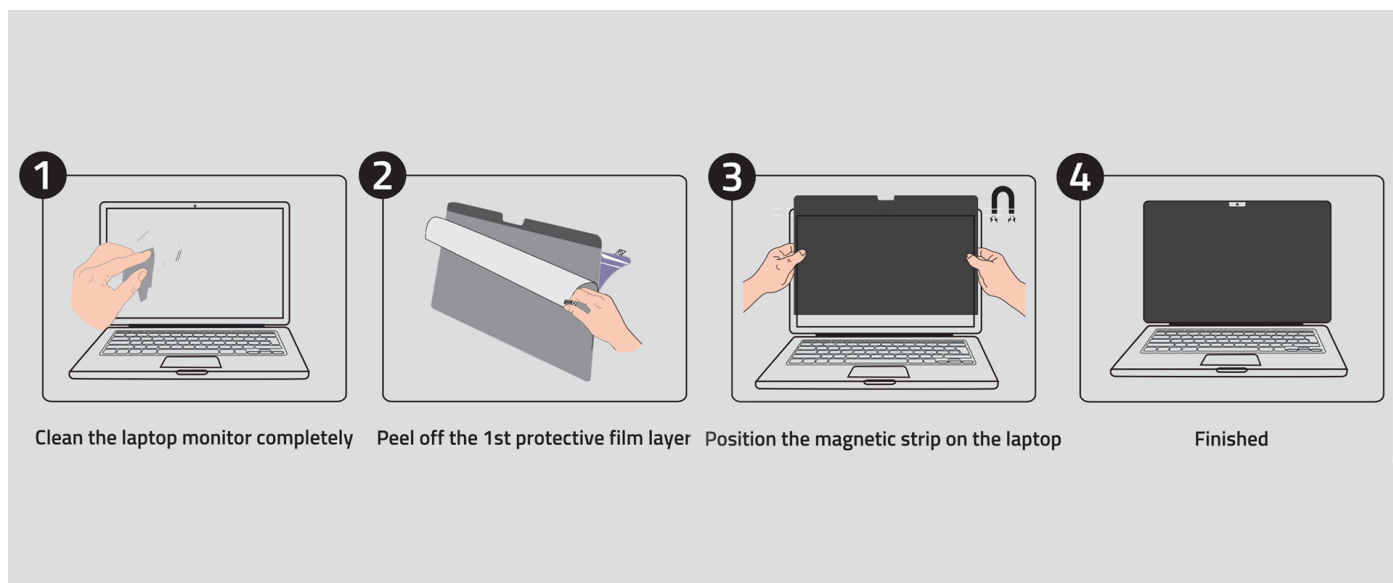

The Qoltec filter guarantees eye protection with Anti Blue Light and Anti Glare functions

The GDPR filter is not just a privacy filter but also a **protective shield for your eyes**. Prolonged use of a computer can be harmful to your eyes due to the radiation emitted by the screen. The Qoltec filter, with its **protection against harmful blue light**, limits this radiation. As a result, it protects your eyes, and sleep improves even after long hours in front of the screen. Additionally, the privacy filter, thanks to its **anti-reflective properties**, significantly enhances the comfort of computer use by reducing eye strain.

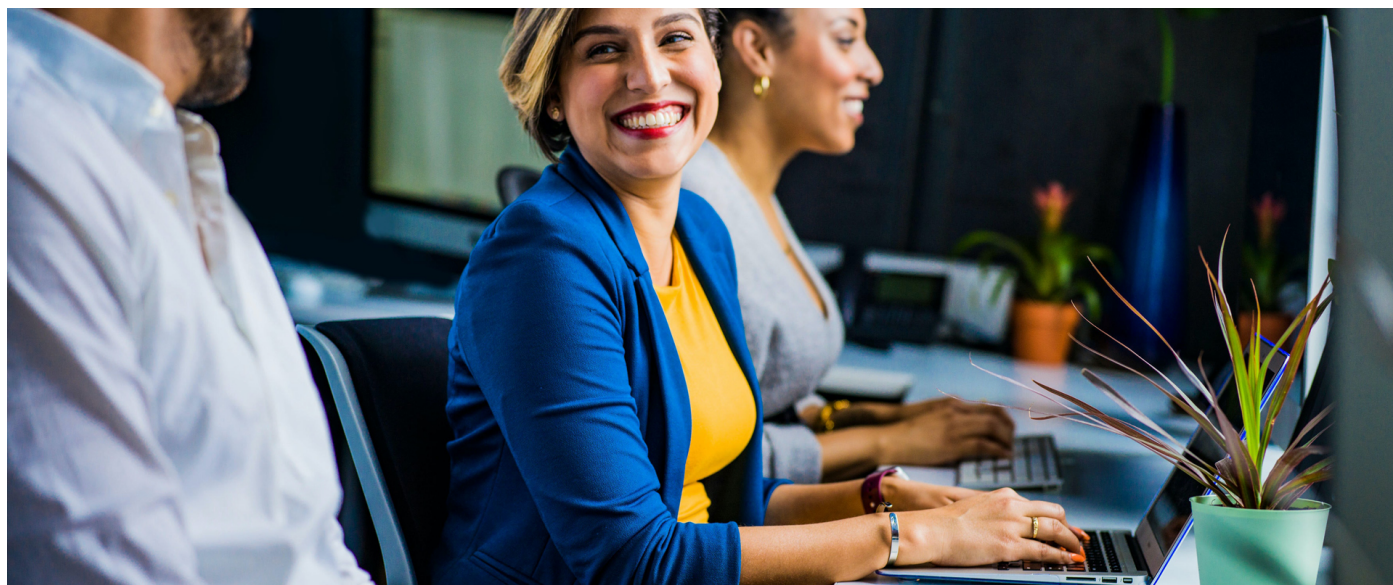

MAGNETIC MOUNTING PAIRED WITH TOP QUALITY – YOUR PRIVACY AT YOUR FINGERTIPS

The filter is mounted on the MacBook screen using a magnetic strip

Discover a new level of convenience with the **magnetic mounting of the privacy filter** for your **MacBook**. The magnetic strip makes installation a breeze – simply place the filter on the screen, and the strong magnets will automatically hold it in place, even when the laptop is closed. This design allows for **easy removal and reattachment of the filter without risking damage to your device**, maintaining the elegant look of your MacBook. It's the perfect solution for professionals who value quick access to effective privacy protection. Made from the highest quality LG material, the Qoltec filter also **protects your screen from dirt, scratches, and fingerprints**.

TRUST CONFIRMED BY WARRANTY

Product covered by a 24-month warranty

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations**. Each of our offered privacy filters comes with a **24-month warranty** from the date of purchase.
