

Qoltec Reverse electric strike | 12V | Stainless steel

Product code: 52458

Qoltec brand reverse electric door strike powered by 12 VDC. Allows remote control of the mechanism of the access control system. Automatically releases the exit lock when power is cut off. Features excellent durability and corrosion resistance. The mounting plate facilitates the installation of the electric door strike, ensuring a solid and secure fixing.

SIMPLE OPERATING PRINCIPLE

Simple operating principle, electric door strike with adjustable latch language and mounting plate

The electric door strike is an important component of the access control system not only in intercom systems, but also in complex building evacuation systems. **The reversing electric door strike is often used in areas where a high level of security is required** . Its operation is very simple. **Unlike standard electric door openers, the reversible electric door opener releases the entry lock and unlocks access in the event of a power failure.** In addition, the mounting plate facilitates the installation of the electric door strike, ensuring a solid and secure fixing.

EXCELLENT DURABILITY AND RESISTANCE TO EXTERNAL FACTORS

Manufactured from high quality zinc alloy and stainless steel

The symmetrical electric door strike from Qoltec is not only a product with advanced functionality, but also of **exceptional robustness**. It has been meticulously manufactured from high quality zinc alloys and stainless steel, ensuring outstanding durability and corrosion resistance. This choice of materials is crucial, especially for outdoor applications where the product is exposed to a variety of weather conditions. **The high build quality of the electric door strike also ensures easy and hassle-free installation and maintenance** , further enhancing its appeal to users.

CONFIDENCE CONFIRMED BY A WARRANTY

A product with a 24-month guarantee

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. Each of the door openers we offer is covered by a **24-month guarantee** valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	Reverse electric strike
Voltage	12V 10%
AC current	300mA - 10V
Direction	Right
Memory	No
Lock	No
Mounting plate	Yes
Distance between holes	55 mm / The mounting plate has a hole distance of 95 mm
Latch adjustment	Yes
Signalization	No
Used	Access control system, fire alarm system, time recording, intercoms, video intercoms.
Additional information	Power outage automatically unlocks the output lock Mounting plate hole distance is 95 mm / Hole distance is 55 mm
OTHER PARAMETERS	
Colour	Silver
Material	Zinc alloy / stainless steel
Dimensions (D/L x W x H)	110 x 25 x 31 mm
Package contents	1 x Electric strike 1 x User manual
Package	Box
Package depth / length [mm]	122
Package width [mm]	45
Package height [mm]	35
Net weight [kg]	0.242
Gross weight [kg]	0.259
Warranty	24 month
EAN code	5901878524580
