

Qoltec Riser PCI-E 1x - 16x | USB 3.0 | ver. 007C | SATA / PCI-E 6pin

Product code: 55501

Riser PCI-E 1x-16x guarantees more stable operation of mining rigs. It's made of a PCI-E 16x (female) socket, a USB cable, a PCI-E 1x (male) socket, a PCI-E/SATA plug and a 6PIN plug, which allows you to connect additional power to the card. You can reduce the load on the motherboard and avoid blown tracks while many graphics cards are running simultaneously. It is the cheapest way to improve ventilation while allowing the use of all available PCI-E 1x sockets.

STABLE OPERATION AT HIGH TEMPERATURE

Stable and efficient work is a **key feature** in crypto excavators. Thanks to the use of polymer capacitors **- Qoltec Riser** is **resistant** to high temperatures.
The multifunctionality of the presented model allows it to be used in various types of non-standard open-case enclosures, or in 1U and 2U rack enclosures, moreover, **it does not require any configuration.**

GET EXTRA SPACE

The presented model is also **used in desktop computers** as an additional module that allows you to connect the computer component to the motherboard in a simple and efficient manner - a practical solution that **allows you to avoid a drop in performance** and tedious work of the computer, and you **will gain** not only **additional, organized space in your PC,** but also **improving ventilation** and **extending the distance between the motherboard and a graphics card** or other computer component.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about high quality of the product you buy? **Our solutions will meet your expectations.** The PCI-E risers we offer are covered by a 24-month warranty valid from the date of purchase.
