Product code: 54540

The STP Cat6 Jack Pin tool-free connector, compatible with the T568B and T568A standards, is an innovative solution that enables the quick and hassle-free creation of reliable connections in Ethernet networks.

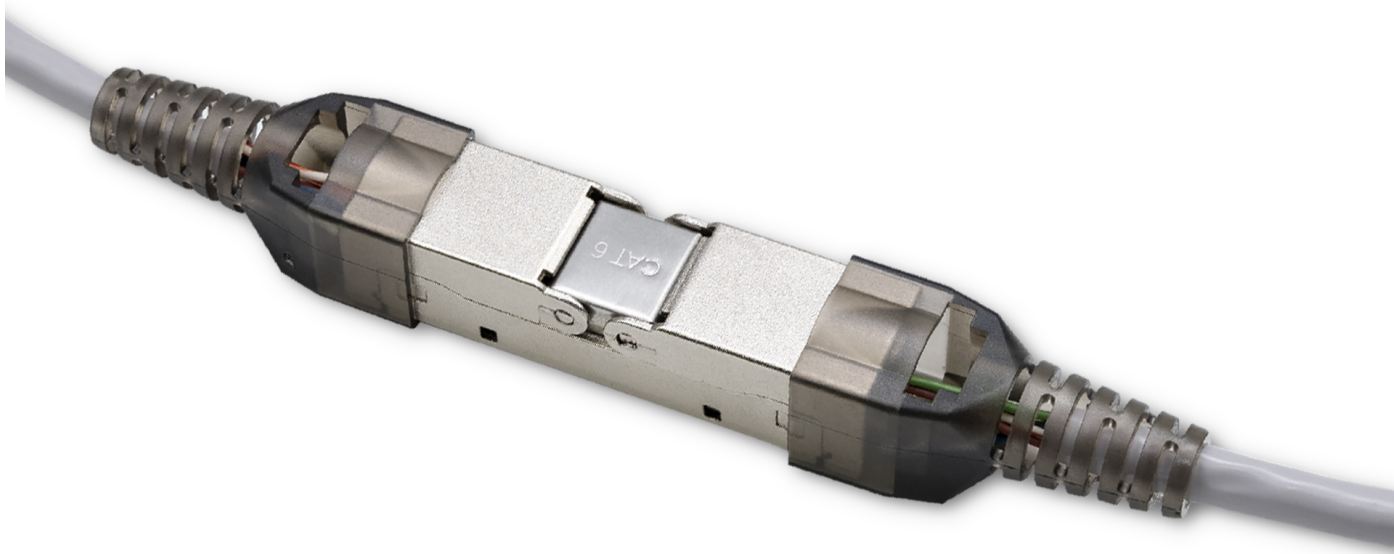

DISCOVER A NEW DIMENSION OF EASE AND RELIABILITY IN NETWORK INSTALLATIONS

A specially designed snap-in mechanism allows for the instant installation of Category 6 cable without the need for additional tools

STP Cat6 Jack Pin tool-free connectors are a convenient and easy-to-use solution in situations where a network needs to be installed or upgraded quickly. This innovative connector enables the instant installation of Category 6 cable, eliminating the need for specialist tools such as crimping pliers. With no hassle with tools, our connector allows for rapid adaptation to T568A or T568B standards, delivering reliable connections in top-quality networks. A specially designed snap-lock mechanism allows for easy insertion and crimping of cables. This is the perfect solution for professionals who value the efficiency, precision and durability of their installations.

QUICK AND EFFICIENT INSTALLATION FOR EVERYONE - WITHOUT SPECIALISED TOOLS

Equipped with shielding, it ensures stable data transmission at up to 10Gb/s

Equipped with shielding, the connector **provides effective protection against electromagnetic interference**, making it ideal for applications requiring the highest quality data transmission. Ideal for use in offices, homes, hotels and industrial environments where reliability and ease of installation are key. Also suitable for those with no experience of computer networks.
