

Qoltec SC/APC fiber optic fast connector | Singlemode | 3.0 mm

Product code: 54496

The fast connector allows the termination of optical fiber without the need for welding.
Connectors: SC/APC
Fiber type: Singlemode

FIBER OPTIC FAST CONNECTOR

Fiber optic fast connectors guarantee low attenuation and allow fiber optic termination **without the need for welding.**
The fast connectors are suitable for terminating optical lines wherever conventional glued optical connectors are used, e.g. for terminating optical fibres in building switch boxes.

SC / APC CONNECTORS

SC type fiber optic connectors are **intended for termination of cables and optical fibers.** Currently, one of the most popular fiber optic plugs. They are characterized by a **"push-pull" latch mechanism** that guarantees quick connection and permanent connection, and the correct placement of the SC-type fiber optic plug in the adapter is signaled by a characteristic click sound. The APC connector has a polished end face of the ferrule at an angle of 8 degrees, thanks to which the reflectance phenomenon occurring when the light passes through the interface has a much smaller impact on the attenuation of the connector.

TRUST CONFIRMED BY WARRANTY

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations.** Each of the quick couplers we offer has a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type connectors	SC/APC
Fiber type	Singlemode
Usage	Telecommunications, industry, wide-area and local city networks, passive fiber-optic networks, cable TV.
Diameter cable	3.0 mm
Package contents	SC/APC fiber optic fast connector
Package	Polybag
Package depth / length [mm]	70
Package width [mm]	15
Package height [mm]	120
Net weight [kg]	0.0020
Gross weight [kg]	0.0030
Warranty	24 months
EAN code	5901878544960
