

Qoltec Smart ID chip card reader SCR-0642 | USB 2.0 + USB-C Adapter

Product code: 50642

The chip card reader can be used wherever fast and secure user authorisation or data processing is required. Compatible with a wide range of cards, both contact and contactless. Plug&pay reader. The software must be adapted to the type of card, not to the reader.

RELIABLE AND EFFICIENT

Compatibility with various industries

Do you run a transport or shipping company and want to provide your drivers with greater comfort and quick tachograph readings? Or perhaps you manage a large company where working time recording is a priority? If so, our chip card reader is the perfect solution for you and your employees. Are you involved in another industry, such as a shop or caf ? **Our device will help you handle loyalty cards, strengthening your relationship with customers**. Regardless of the industry, the Qoltec chip card reader combines comfort and convenience for everyday use.

FAST AND SECURE DATA READING

Compatible with a wide range of cards, both contact and contactless
A chip card reader primarily serves as an interface between the card and the computer, enabling physical access to the card. However, it is the software that is responsible for understanding and correctly handling the data and functions specific to a particular chip card. Therefore, please note that **the software must be adapted to the type of card, not to the reader itself** . The device allows the following cards to be read: ▪ **tachographs,**

- **working time recording cards,**
- **loyalty programme cards,**
- **electronic ID cards**

WHY CHOOSE OUR CHIP CARD READER?

Key Features of Our Reader
Right from the start of the design process, we ask ourselves: what do customers expect from our products? That is why we pay special attention to detail and use the highest quality materials.
Our device offers:

- **PLUG&PLAY** interface – this guarantees immediate operation of the reader without the need to install additional software; **all you need is the software you already have on your laptop or PC dedicated to the specific type of cards being read.**
- **USB** plug,
- **LED** indicates that the card is correctly inserted in the reader,
- compact size ensures convenience of use and is easy to carry

CONFIDENCE CONFIRMED BY A WARRANTY

The product is covered by a 24-month warranty
Do you care about the high quality of the product you buy? Our solutions **will meet your expectations**. Each of the smart chip card readers we offer is covered by a **24-month warranty** valid from the date of purchase.
