

Qoltec Thermal transfer ribbon 110 mm

Product code: 51887

Wax-resin ribbon is used wherever quality matters. The material used for its production makes the printed information legible and extremely resistant to high temperatures and abrasion.

BET ON QUALITY

Do you use thermal transfer printers? So you know how important it is to choose the materials you work.

The Qoltec brand has prepared an offer of thermal transfer ribbons for you, which will prove perfect wherever reliability is important.

The principle of operation of the tape is very simple - when the head comes into contact with carbon paper, the dye is released and then applied to the label.

The durability of the printout depends on the type of material used. Our solution in the form of a combination of wax and resin gives extremely durable results at an affordable price.

UNCOMPROMISING AND RESISTANT TO EVERYTHING

Only proven and uncompromising solutions win in your industry. The quality of the printout should not be an exception here, with the Qoltec ribbon resistant to high temperatures and abrasion you can get a fully legible and durable print for even longer.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about high quality of the product you buy? Our solutions will meet your expectations. Our printer supplies come with a 24-month warranty valid from the date of purchase.

TECHNICAL DATA
