

Qoltec Wi-Fi module for solar inverter

Product code: 53962

Wi-Fi module designed to communicate with Qoltec solar inverter via RS232 cable . Allows you to monitor and record the operation and status of the inverter via Wi-Fi.

FULL CONTROL

Wi-Fi module designed to communicate with Qoltec solar inverters. The device allows you to fully monitor the operation of the inverter by collecting operational data and information about the status of the photovoltaic system.

QUICK INSTALLATION

To speed up the smooth installation of the module take care to :
- have permanent access to a wi-fi network,
- installation should be carried out near the router,
- the distance between the DTU and the inverter should not exceed 100 m.

TECHNICAL DATA

Producer	Qoltec
Rated voltage	DC 5~12V
Working frequency	2.412GHz~2.484GHz
Communication	IEEE802.11b/g/n
Interface	RS232, RS-485, TTL
UV resistance	Yes
Short-circuit protection	Yes
IP Rating	IP65
Operating temperature	-30 ~+85
Storage temperature	-40 ~+90
Colour	Black
Dimensions (D/L x W x H)	18 x 65 x 10 mm
Package depth / length [mm]	73
Package width [mm]	100
Package height [mm]	20
Net weight [kg]	0.015
Gross weight [kg]	0.023
Certificate	CE
Warranty	24 month
EAN code	5901878539621
