

Qoltec Video Capture Card | Adapter USB-C USB-A | HDMI | 4K 30Hz | Aluminium

Product code: 53789

Compact 4K image capture card. Designed for laptops, computers, monitors, televisions, projectors, or other video sources equipped with an HDMI connector. With two types of input connectors, the adapter ensures wide compatibility with various devices. The aluminium casing ensures durability, an aesthetic appearance and better heat dissipation. Thanks to the fast USB 3.0 port, the card offers reliable and fast data transfer. Backward compatible with lower resolutions (Full HD, HD).

A UNIVERSAL SOLUTION FOR EVERYDAY IMAGE AND SOUND TRANSMISSION

4K resolution support – more space, more detail

The adapter guarantees smooth display of content in **4K 3840 2160 resolution at 30 Hz**, which means very good image quality and high detail on your monitor or television. This resolution makes documents, presentations, photos and videos clearer and more readable. **A refresh rate of 30 Hz is perfectly adequate** for everyday work, presentations and multimedia viewing. Image and sound are transmitted simultaneously via a single HDMI connection, without the need for additional audio cables. This is a practical solution for the office, home and mobile working.

8/10/12-bit colour space

The device supports 8-, 10- and 12-bit colour depth, which translates into **more accurate colour reproduction and smoother transitions between shades**. Higher colour depth allows for a more natural image, especially noticeable on larger screens and when working with video and multimedia content.

AN EXCELLENT CHOICE FOR ANYONE WHO VALUES CONVENIENCE, QUALITY AND FUNCTIONALITY IN ONE DEVICE

Wide compatibility with mobile devices and a wide range of applications. The adapter is an excellent choice for those who value ease of use, functionality and versatility. Simultaneous digital transmission of image and sound via HDMI eliminates the need for additional audio cables. **Key features and benefits of the adapter :**

- **Compatibility with most mobile devices and smartphones equipped with a port,**
- **Stable image and sound transmission,**
- **Plug&Play – no drivers required,**
- **8/10/12 bit colour depth,**
- **Supports resolutions up to 3840 x 2160 at 30 Hz,**
- **Aluminium housing – ensures high resistance to mechanical damage,**
- **Compact format – ideal for work and travel.**

ROBUST AND DURABLE CONSTRUCTION

Durable aluminium casing, elegant design, compact size

Its compact size and light weight make the card **extremely practical and convenient**, and its light weight allows you to take it literally anywhere, to work, the office or anywhere else on a business trip and beyond. **It fits easily in your pocket or rucksack . Made of high-quality durable aluminium, which also helps to dissipate heat** and provides effective protection against crushing and damage.

FORGET ABOUT DRIVERS, ENJOY FULL PLUG&PLAY COMPATIBILITY

Plug and play - No drivers or additional software required

Thanks to Plug & Play technology, **the adapter is ready to use immediately after connection**, without the need to install additional drivers or software. Simply connect the USB-C or USB-A connector to start using the device. The adapter automatically recognises the connected equipment and adapts to its configuration, ensuring fast and trouble-free operation.

CONFIDENCE CONFIRMED BY A WARRANTY

Product with 24 months guarantee

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The adapter we offer comes with a **24-month guarantee** valid from the date of purchase.
