

Qoltec Antenna 5G LTE ceiling | 5dBi | 50W | Indoor

Product code: 57050

The Qoltec 5G ceiling antenna is designed for indoor use. By utilizing high-quality RB58 cables, it ensures top-standard performance, significantly enhancing signal reception and transmission speed.

BOOST YOUR SIGNAL

The 5G Antenna: The Perfect Solution for Data Transmission Interference Issues

Wireless Internet has revolutionized the 21st-century market. We use it on our laptops, TVs, to watch movies, listen to music, and stay connected with loved ones. The possibilities the Internet offers today are incomparable to those just a few years ago. Slow data speeds, or the inability to watch a movie without buffering, were common issues. While technology has advanced, these problems haven't entirely disappeared. We still encounter data transmission drops and interruptions that disrupt our online experience, but **we have the perfect solution for you.** The Qoltec 5G antenna significantly improves the quality of data transmission to your devices.

MAXIMUM INTERNET SPEED WITHOUT DEAD ZONES

Ceiling Mounting Eliminates Dead Zones, Providing Strong Internet Signal Access

The Qoltec 5G antenna, mounted on the ceiling, is a modern solution that ensures fast and stable internet access throughout the room. Its strategic placement on the ceiling allows the signal to be evenly distributed, eliminating dead zones and improving connection quality in every corner of the room. These antennas are compact and discreet, making them easy to integrate into your interior design. Their advanced technology fully leverages the capabilities of the 5G network, offering lightning-fast data transmission speeds, which are invaluable in both home and business environments.

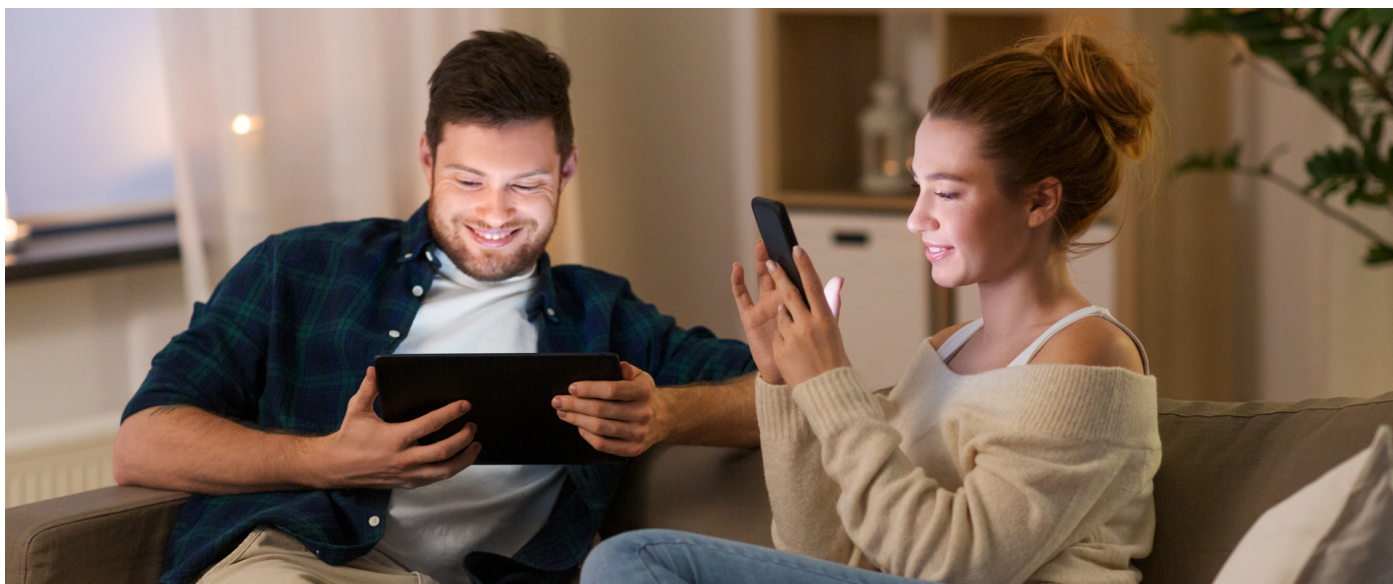

THE LATEST TECHNOLOGY WITHIN YOUR REACH

5G Technology is an Innovation Requiring the Right Antenna

The Qoltec 5G antenna harnesses innovative 5G technology, operating on frequencies between 3300 - 3800 MHz, providing extensive coverage and a stable network connection regardless of the number of devices and users sharing the network. It is designed to enhance network quality at home, in the office, or any indoor space with internet access. Additionally, our device offers: - SMA connector – allowing connection to devices using coaxial cables, - modern design – featuring high-quality materials and meticulous attention to detail.

CONFIDENCE CONFIRMED BY A WARRANTY

This Product Comes with a 24-Month Warranty

Do you care about the high quality of the products you buy? Our solutions will meet your expectations. The GPS antenna we offer comes with a **24-month warranty** starting from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	Indoor
Power	50W
Antenna gain	5dBi
Working frequency	3300 - 3800 MHz
Impedance	50
Polarization	Vertical
Antenna connector	SMA male
VSWR	1.8
Input power cable	RG-58U
Additional information	Antenna designed for ceiling installation indoors.
OTHER PARAMETERS	
Colour	White
Cable length	~3m
Working temperature	-40°C 50°C
Dimensions (D/L x W x H)	220 x 220 x 90 mm
Package contents	1 x Antenna 5G
Package depth / length [mm]	180
Package width [mm]	180
Package height [mm]	180
Net weight [kg]	0.3560
Gross weight [kg]	0.4550
Warranty	24 months
EAN code	5901878570501
