

Qoltec Battery Charger for Ni-MH type R03 AAA R6 AA | LCD | USB-C cable | White

Product code: 50848

Intelligent microprocessor-controlled charger for Ni-Cd and Ni-MH R03/AA R6/AAA batteries, ideal for all owners of devices powered by rechargeable batteries. Capable of charging 1, 2, 3 or 4 batteries simultaneously. Features quick battery charge status recognition and automatic charge termination when the battery is fully charged. You can be sure that your batteries are always ready for use and that the charger operates economically and safely. A specially designed mechanism allows for easy insertion and removal of batteries. It has a display.

ENSURE THE LONG-LIFE EFFICIENCY OF YOUR BATTERIES

INDIVIDUAL CHARGING CHANNELS

Individual handling of each cell, monitoring of charge status, automatic termination of charging upon reaching full charge

Our charger is equipped with high-quality overcharge protection, ensuring the safety and long-term performance of your batteries. With an innovative charging system, the charger individually handles each cell, monitoring its status and automatically stopping charging before overcharging occurs. This intelligent feature provides optimal charging conditions for each battery, protecting them from damage and extending their lifespan, allowing you to enjoy reliable power for a long time

GIVE YOUR DEVICES A SECOND LIFE - TRUST OUR BATTERY CHARGER

Possibility to charge 1, 2, 3 or 4 batteries simultaneously, LCD display - Individual handling of each cell,

- Capability to charge 1, 2, 3, or 4 batteries simultaneously,
- USB/USB-C cable included,
- Features LCD display,
- Direct plug-in to the socket,
- Specially designed sockets enabling easy insertion and removal of batteries,
- Automatic termination of charging upon reaching full charge,
- Efficient and safe - short-circuit protections.

DESIGNED FOR COMFORT AND FUNCTIONALITY

The thoughtful design enables easy insertion and removal of batteries

Thanks to its lightweight construction and compact size, the AA and AAA battery charger can be easily taken anywhere, providing a reliable power source both while traveling, at work, and during outdoor activities. Regardless of location and situation, you can be sure that you will always be able to charge your batteries, using e.g. a power bank or USB socket in the car ensuring the continuous operation of electronic devices. The thoughtful design not only prevents batteries from falling out but also facilitates easy insertion and removal of batteries.

CONFIDENCE CONFIRMED BY A WARRANTY

The product is covered by a 24-month warranty

Do you value high-quality products? Our solutions will meet your expectations. Each of our chargers comes with a **24-month warranty from the date of purchase**.

TECHNICAL DATA

Producer	Qoltec
Type	Rechargeable Battery Charger
Battery capacity	AA : 1800mA AAA : 900mA
Input	5V/2A
DC output	1.2VDC
Battery charging current	AA : 500mA 15%, AAA : 500mA 15%
Number of batteries	Charger for up to 4 Rechargeable Batteries
Compatibility	Ni-MH, Ni-Cd, R6/AA, R03/AAA
Display	LCD
Power cable	USB/USB-C with length ~ 0.55m
Protection	Overcurrent Overvoltage
Additional information	Can be recharged via USB charger, power bank, laptop or car USB socket To initiate the charging process, insert the batteries according to their polarity
OTHER PARAMETERS	
Colour	White
Material	ABS + plastic
Operating temperature	0°C ~ +35°C
Storage temperature	-25°C do +60°C
Storage humidity	85%
Dimensions (D/L x W x H)	25 x 85 x 65 mm
Package	Box
Package contents	1 x Battery charger 1 x USB-C cable 1 x User manual
Package depth / length [mm]	30
Package width [mm]	70
Package height [mm]	115
Net weight [kg]	0.080
Gross weight [kg]	0.091
Warranty	24 month
EAN code	5901878508481
