

## Qoltec RJ45 Through connector plug | CAT6 | UTP | Pass Through | Gold plated contacts | 100 pieces

Product code: 54544

RJ45 connector commonly used to create connections in LANs, for connecting Category Cat6 unshielded Ethernet cables. The connector is made with the Pass Through system. It has 8 pins and gold-plated contacts. Set contains 100 pieces.

### COMPATIBLE WITH UTP CAT6 PATCHCORD CABLES

### Push-through RJ45 UTP plugs with gold-plated contacts

A high quality set of transparent RJ45 connectors with a Pass Through design, compatible with UTP Cat6 patchcord cables. The connector has gold-plated metal contacts for improved conductivity and corrosion protection. Ideal for use in telecommunications, computer network installations or for connecting various types of devices requiring network support. Particularly useful for installations where there is a need to connect cables quickly and easily. Remember to ensure that the plugs and cables are category-compatible for optimum network performance

## HIGHER CONNECTION RELIABILITY

### Better and more precise clamping compared to standard plugs

RJ45 straight-through connectors not only offer significantly better and more precise crimping compared to standard plugs, but also provide higher connection reliability in telecommunications and computer networks. Simply pull all eight wires through the connector, making it easy to control the even and correct order of the wires before crimping. This is the perfect solution for professionals who value efficiency, precision and durability in their installations. We recommend using a dedicated crimping tool.

## CONFIDENCE CONFIRMED BY A WARRANTY

### Quality Guarantee - Your Secure Connection

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The product comes with a 24-month guarantee valid from the date of purchase.
