

# Qoltec Network SWITCH | 8 x RJ45 port | 1000Mbps | Fast Ethernet | LAN

**Product code: 52248**

The network switch is a powerful device that provides stable and fast connections. It has 8 RJ45 ports for connecting devices on the local network. The maximum signal transmission distance is 150 metres, making it suitable for extensive network installations.

## DISCOVER THE FULL POTENTIAL OF YOUR NETWORK

## Stable and fast local network

If you are looking for a reliable and efficient network device that provides you with a stable and fast connection and smooth data transmission, then our switch from Qoltec is the ideal choice. Thanks to its innovative technology and robust design, **our device guarantees stable and smooth signal transmission from a single source to up to four devices simultaneously** . This functionality allows for an exceptional expansion of the possibilities of use and exploitation of the multimedia system, **without the need for additional complex solutions or costly investments** in additional equipment. Now you can enjoy your favourite films, video games or presentations on several receivers simultaneously.

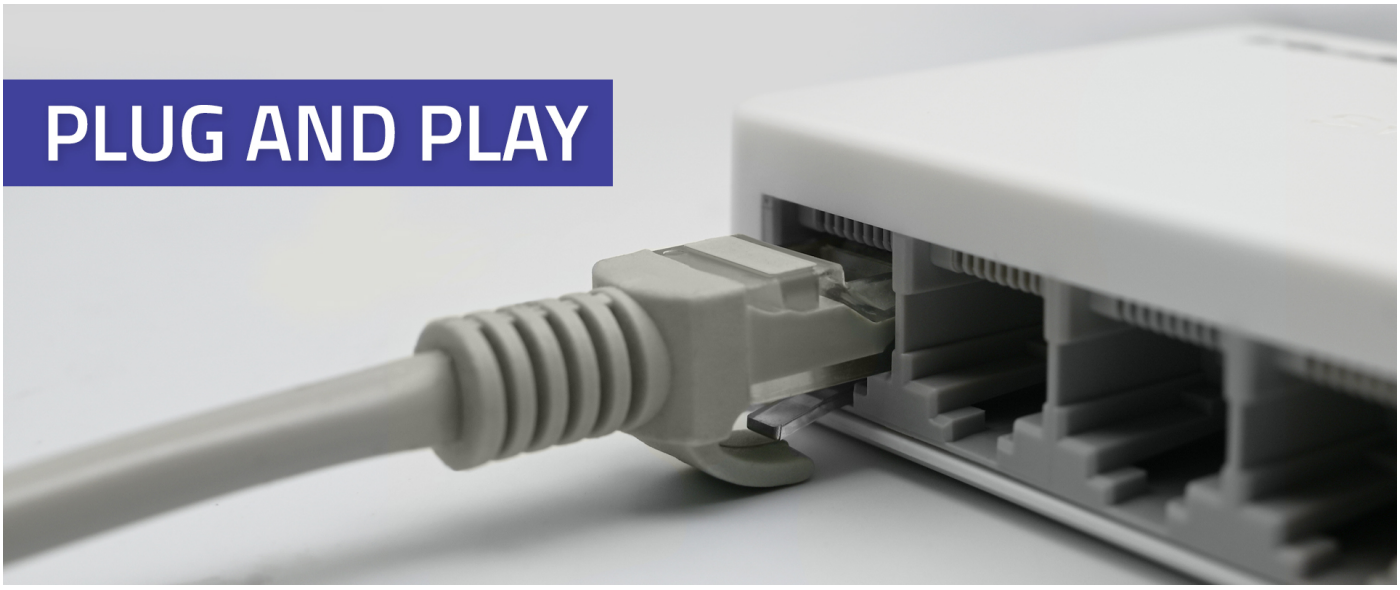

## FUNCTIONALITY ALWAYS AT HAND

# Range up to 150m, full duplex, 8 RJ45 ports with automatic crossover and interference protection

Discover new possibilities with the Qoltec device that offers:
- Signal distance up to 150m,
- **Equipped with 8 RJ45 ports, each port has an automatic line crossover function**,
- 100Mbps at 14880 packets per second, 1000Mbps at 14800 packets per second,
- Enables efficient data exchange in full duplex mode compliant with IEEE802.3X, half duplex data flow control,
- Supports up to 1024 MAC addresses,
- The unit is also distinguished by 8-pin shielded ports to protect against electromagnetic interference, and an efficient heat dissipation system to ensure reliable operation even under intensive loads,
- **Has LEDs,** which provide information on the current operation of the device,

## EXPAND YOUR MULTIMEDIA CAPABILITIES

# Simple and quick installation

Our device **offers instant and trouble-free installation** , thanks to Plug & Play technology, which requires no additional configuration or technical expertise. You only need to follow a few simple steps. Firstly,**connect the devices to the appropriate RJ45 ports using the appropriate network cables** and then connect one of the ports to your router or access modem. Make sure the LEDs on the switch indicate activity on the ports.

## TRUST CONFIRMED BY WARRANTY

# Product with 24 months guarantee

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. **The product is covered by a 24-month warranty** valid from the day of purchase.

## TECHNICAL DATA

| | |
|---|---|
| Producer | Qoltec |
| Interface | RJ45 |
| Max. bandwidth | 20Gbps |
| Max. baud rate | 1000Mbps |
| Power supply | 5-12V / 0.6A |
| Usage | Communication, Internet, Server, router |
| OTHER PARAMETERS | |
| Colour | White |
| Working temperature | -10 C ~ 55 |
| Dimensions (D/L x W x H) | 56 x 126 x 21 mm |
