

## Qoltec Fuse base with diode + DC fuse | 1P | 1000V | 15A | 10x38 | solar

Product code: 52580

Qoltec's 1000V fuse will work well as overcurrent and short circuit protection. The set includes a fuse housing with a diode and a replaceable 15A insert with dimensions of 10x38 mm . For use in photovoltaic systems.

### SAFETY IS OUR PRIORITY - TRUST OUR FUSES

Every circuit of an electrical installation must be properly protected from the effects of overloads and short circuits, so it is **mandatory to use the appropriate protection**. One such device is a **DC fuse**, which helps remove the current when the current in the circuit is too high. It effectively eliminates the risk of damage to the installation caused by a temporary overvoltage or short circuit, which can damage the network and connected equipment.

## HIGH QUALITY AND DURABILITY

Qoltec brand DC fuse is made of high quality material moreover it features :

- fireproof housing,
- durability,
- made of corrosion-resistant material,
- replaceable and easy to use,
- It has a diode indicating the operation of the fuse,
- long service life.

## CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. The product comes with a 24-month warranty valid from the date of purchase.

## TECHNICAL DATA

Producer	Qoltec
Fuse	YES
Rated voltage	1000V
Rated current	15A
Class	II
Number of poles	1P
Type of assembly	Szyna TH35
IP rating	IP20
Usage	Photovoltaic, solar panels
Material	PA66, cooper
Relative humidity	+20 95% +40 50%
Operating temperature	-10°C ~ +85°C
Dimensions (D/L x W x H)	75 x 85 x 19 mm
Net weight [kg]	0.084
Gross weight [kg]	0.085
Certificate	CE
Warranty	24 miesiące
EAN code	5901878525808
