Qoltec Automatic Voltage Stabilizer AVR | 500VA

Product code: 53893

Automatic Voltage Stabilizer AVR increases or decreases the output voltage to match the operational level of the connected devices.
AVR improve the parameters of the voltage supplied from the local network or a power generator.

SAFE AND STABLE OPERATION

Many of us use electric power generators. We use them to power tools used in the garden, construction site, garage, also for food trucks and caravans. We will use them in every place where we don't have access to an electric socket or when received current is not very stable. If your electric power generator is not equipped with an automatic voltage stabilizer (AVR), your equipment is exposed to malfunction or damage.
Qoltec Automatic Voltage Stabilizer AVR is the perfect solution that will ensure stable voltage and proper operation of the powered devices.

PROTECTION OF YOUR DEVICES

Our solution offers:
- a combination of the functions of a voltage stabilizer and a surge protection device,
- protection against voltage fluctuations,
- the certainty that when the voltage is too high, the stabilizer will disconnect the device from the network,
- built-in LCD display that will allow you to read the parameters,
- compact dimensions and a built-in handle, thanks to which you can take the device with you anywhere.

CONFIDENCE CONFIRMED BY A WARRANTY

You value the quality of purchased equipment so our projects and solutions are focused on meeting your expectations. Qoltec Automatic Voltage Stabilizer is covered by 24 months warranty.

TECHNICAL DATA

Producer	Qoltec
Type	Single phase
Voltage range	Input voltage: 150 Vac ~ 270 Vac (50 Hz - 60 Hz); Output voltage: 230 Vac (50 Hz - 60 Hz)
Transformer	Toroidal C.R.G.O.
Efficiency	98%
Display status	Normal operating mode Time delay Overheat Overload Overvoltage
Apparent power	500 VA
Delay Function	180s / 6s
Precision	8% - 10%
Sockets	1 x SCHUKO 1 x FRENCH
Usage	Electric power generator Used in places where operational reliability is required
Protection	Surge protection Overload protection Short Circuit Protection Overvoltage Protection Voltage drop protection
OTHER PARAMETERS	
Colour	White
Operating temperature	0°C ~ +40°C
Relative humidity	10% to 102%, non condensing
Dimensions	200 x 134 x 117 mm
Package contents	AVR voltage stabilizer whit built-in cable power (1 x SCHUKO) 70cm 2 x fuse 5A, 250V User manual
Package depth / length [mm]	168
Package width [mm]	255
Package height [mm]	180
Net weight [kg]	2.2000
Gross weight [kg]	2.3000
Warranty	24 months
EAN code	5901878538938
