

Qoltec Automatic wire stripper with cutter 2in1 | 0.5-6mm

Product code: 54277

The automatic wire stripper with cutter allows quick and precise removal of insulation from cables. The wide range of diameters handled by the tool allows it to work with different types of cables with varying insulation sizes. The blades made from high-quality materials ensure precise cutting of the insulation without damaging the cables or optical fibres.

PRECISION AT A HIGH LEVEL - REMOVE INSULATION WITH EASE

Automatic adjustment, precision cutter

Safety is an absolute priority when stripping fibre optic cables, so the use of high quality fibre optic tools is crucial to ensure not only safety, but the efficiency and reliability of optical networks. The automatic self-adjusting stripper automatically adjusts to the cable diameter. It is used to remove insulation with a cable cross-section range of 0.5-6 mm. Equipped with a cutter for precise cutting of cables, a system of interchangeable blades and a knob for adjusting the blade pressure according to the insulation thickness.

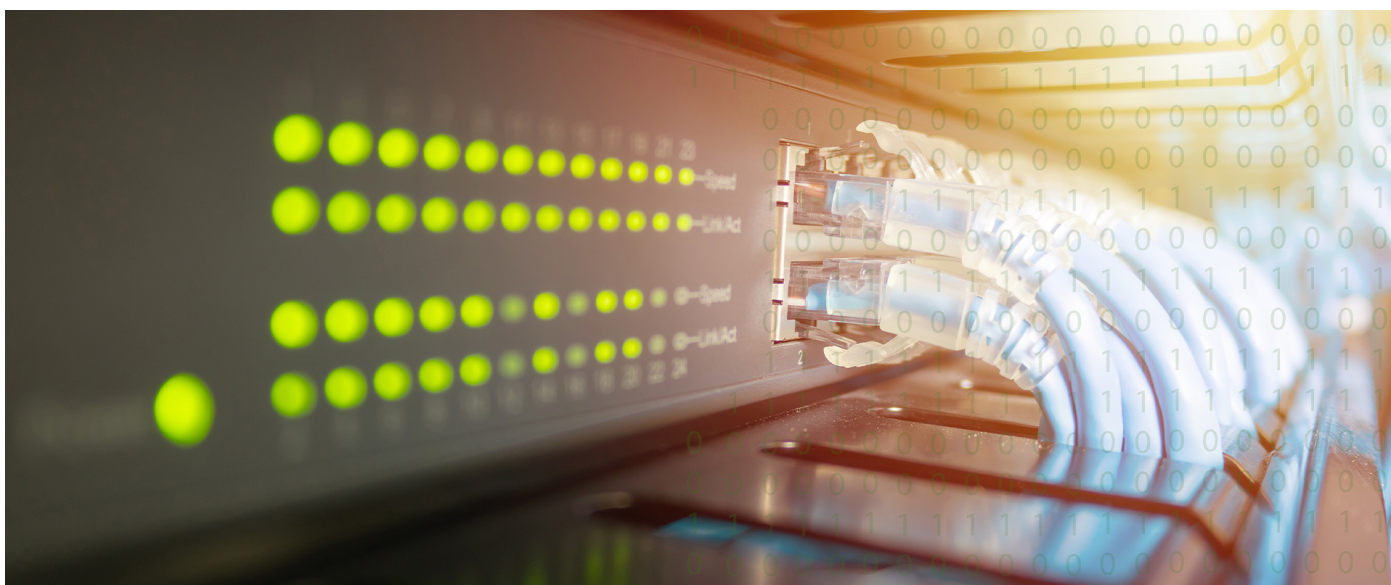

ERGONOMIC AND COMFORTABLE TO USE

Solid construction

The automatic insulation stripper, thanks to its ergonomic handle, fits perfectly in the hand, is lightweight and handy, which significantly increases working comfort and ensures safety during use. **The ability to adjust the pressure and depth of cut allows the tool to be precisely matched to the specific type of insulation** . The robust construction and high-quality materials make the tool durable and very long-lasting.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you want a high quality product? Our solutions will meet your expectations. The accessories we offer come with a **24-month guarantee** valid from the date of purchase.
