

## Qoltec DIN rail power supply | 24W | 12V | 2A | White

Product code: 50918

DIN rail power supplies are industrial power supplies which, in addition to a sufficiently high degree of protection ensuring protection against external conditions, also have high power and efficiency parameters.

### MULTI-SECTOR USE

DIN rail power supplies are a useful element of automation systems, machine control, lighting technology and industrial electronics where the size of the power supply devices and their adaptation to a limited space are important.

### MATCH YOUR MODEL

Don't you know which power supply to choose? It's easy:

It is essential to calculate the power consumption of all devices it supports. The sum will allow to determine the minimum power that will ensure the operation of all components in the system powered by a specific DIN power supply. It is worth remembering that when choosing a power supply, provide a reserve of approx. 10-15% of power for the safe functioning of the equipment connected to it.

### PRACTICAL SOLUTIONS

DIN rail power supplies are made of the highest quality materials to provide you with reliable power in any situation. Additionally, it has protection against:

- overvoltage protection against too low or too high input voltage,
- overloads are protection against overloads of each of the power lines,
- short circuits is a protection against short circuits in the power supply circuit,
- thermal is protection against overload or bad air circulation.

### TRUST CONFIRMED BY WARRANTY

You care about the high quality of the product you buy? Our proposals will meet your expectations. Each of the DIN power supplies we offer is covered by a 24-month warranty valid from the date of purchase.

## TECHNICAL DATA

Producer	Qoltec
Usable power	24 W
Input voltage	220 - 240 V
Output voltage	12 V
Range of output voltage regulation	11-13 V dc
Output current	2 A
Frequency	50 - 60 Hz
Efficiency	86%
Security	<ul style="list-style-type: none"><li>- overvoltage protection</li><li>- overload protection</li><li>- short-circuit protection</li></ul>
Additional information	For use only with a device conforming to the specifications indicated in the device's specification Mounting on DIN rail TS35 / 7.5 or 15 Output voltage adjustment
IP rating	IP 20
Working temperature	-20 C ~ +50
Colour	Grey
Dimensions (D/L x W x H)	58 x 35 x 93 mm
Package contents	DIN power supply
Package depth / length [mm]	102
Package width [mm]	45
Package height [mm]	70
Net weight [kg]	0.1160
Gross weight [kg]	0.1330
Certifications	CE
Warranty	24 months
EAN code	5901878509181
