

Qoltec EV Cable Type 2 for car charging | 230V | 7kW | 32A | 5m

Product code: 52472

EV charging cable for an electric car equipped with a Type 2 plug compatible with most electric cars sold in Europe.

- TPU coating
- waterproof
- dustproof
- durable

ENJOY INDEPENDENCE AND CONVENIENCE

Reliability in everyday use, Fast and efficient charging, Compact design, Universal Type 2 connector

Don't let the low charge of your battery prevent you from using your electric vehicle. With our cables you can charge your car's battery in just a few minutes. Our EV cable will be perfect, for example, during longer vacation trips, thanks to its compact design, it takes up little space, you can easily carry it directly in the trunk or in the included bag. You don't have to worry about additional terminals, the cable has a type 2 connector – you can connect it from any station in Europe and enjoy independence while covering more miles.

EUROPEAN CONNECTOR STANDARD TYPE 2

EV cable with Type 2 connector – Compatible with most electric cars sold in Europe

The cable has a Type 2 connector, which is now the official standard of the European Union and charges electric cars equipped with the corresponding charging socket. The Type 2 connector is 7 contacts, of which 3 contacts or 5 are for charging and 2 are for communication between the station and the car. Compatible with most electric cars sold in Europe.

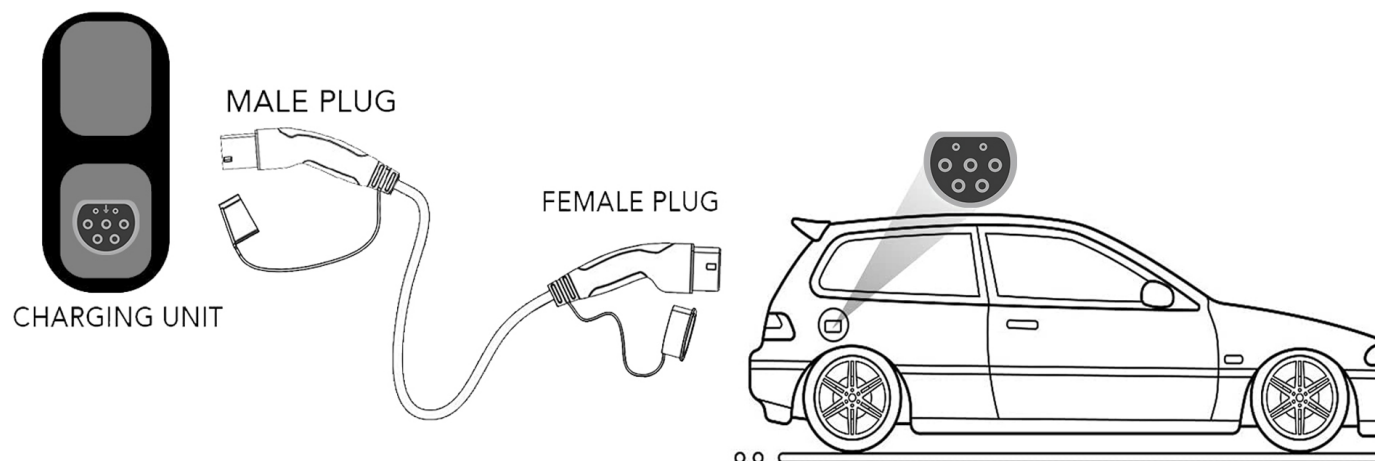

CHARGE YOUR ELECTRIC CAR WITH THE BEST PRODUCTS ON THE MARKET

Ergonomic plug and 5-metre cable length; complies with all relevant safety standards

The ergonomic plug and 5-meter cable length will provide any user with a high level of convenience. The cable has been thoroughly tested, has full compliance with all required safety standards, is fireproof and resistant to extreme weather conditions, designed to operate at -30°C ~ +50°C. In addition, the cable's outer sheath exhibits high durability and flexibility, as well as water and dust resistance.

HOW TO CONNECT THE EV CABLE CORRECTLY?

Flexible, durable and easy to use – guaranteed comfort for many years to come

The cable has **2 male and 2 female connectors**. The illustration above shows the correct way to connect the cable. The exceptional flexibility of the cable and the ergonomic shape of the pistol ensures complete comfort during daily use and storage of the cable. **The mechanical life of the cable is ~ 10.000 connections**, i.e. daily charging of your car for at least **25 years**.

CONFIDENCE CONFIRMED BY A WARRANTY

This product comes with a 24-month warranty

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The chargers we offer come with a

24-month guarantee from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	2
Input voltage	200 -250 V
Output voltage	200 -250 V
Operating current	32A
Frequency	50Hz
Maximum charging power	7kW
Mechanical life	10 000 cycles
Conductor cross-sectional area	3*6mm + 1*0.5mm
Diameter of the cable	13.5mm
Cable length	5m
Insulation material	TPU
Safety	Overvoltage protection Undervoltage protection Surge protection Grounding Lightning protection Fully sealed and waterproof housing Fire-retardant housing – UL94 V-0
IP Rating	IP65
Working temperature	-30°C ~ +50°C
