

Qoltec ForceFan 6000 RPM fan | 120mm | 12V

Product code: 50714

Qoltec fan with a double ball bearing designed for cooling computer components, inside computer housings, crypto excavators or electrical distribution boxes.

LET THE TEMPERATURE COOL DOWN

We know how important for you is **continuity of work in your cryptocurrency or PC**. You've probably encountered a situation where your equipment overheated, resulting in the **loss of important data on more than one occasion**.

We have a solution for this in the form of the presented **Qoltec brand fan model**.

Due to the **high rotation speed, high airflow** is generated, which **removes the concentrated heat from the filled electronic cases**, thus your equipment:

- Will not overheat,
- Will improve its operation,
- Automatically extends the life of.

DOUBLE PROTECTION AT HIGH SPEED

The Qoltec ForceFan fan is equipped with a **solid double ball bearing**, which guarantees reliable and durable operation of your equipment. In addition, it is characterized by **high rotation speed** - up to **6000 revolutions per minute**! The cooling of the devices takes place at a rapid pace, and the **classic, black housing** will perfectly fit into any type of crypto excavator or PC.

TRUST CONFIRMED BY WARRANTY

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations.** The windmill we offer is covered by a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Usable power	18 W
Voltage	12 V
Type of bearing	2 x ball bearings
Rotational speed	6000 rpm
Output current	1.5 A
Air flow rate	266.8 CFM
Connectors	1 x Molex 4pin 1 x 3pin
Noise level	71.5 dB
OTHER PARAMETERS	
Colour	Black
Dimensions (D/L x W x H)	37 x 120 x 120 mm
Package contents	Qoltec ForceFan fan
Package depth / length [mm]	130
Package height [mm]	130
Package width [mm]	38
Net weight [kg]	0.2190
Gross weight [kg]	0.2200
Warranty	24 months
EAN code	5901878507149
