

Qoltec GaN POWER PRO charger | 1xUSB-C | 1xUSB | 30W | 5-20V | 1.5-3A | Black

Product code: 52377

The GaN Power PRO mains charger provides fast and safe charging based on fast charging technology. The charger has a built-in USB-A and USB-C port and has a number of safety features.

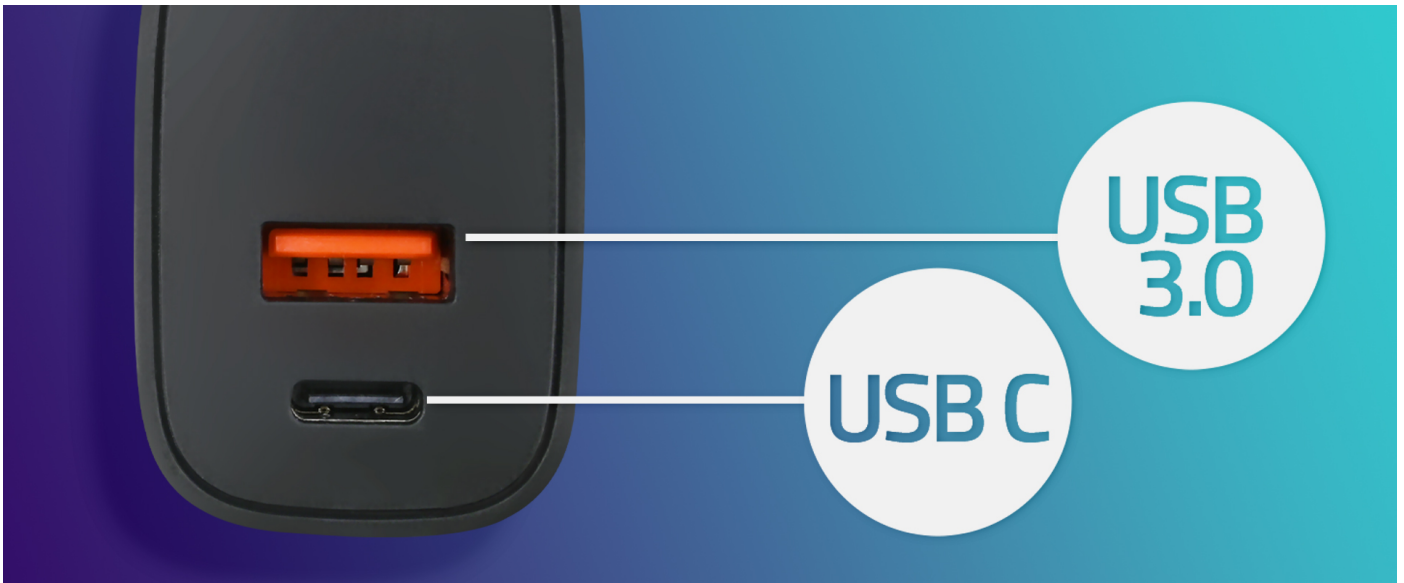

WHAT IS GAN TECHNOLOGY?

The Qoltec brand charger is **equipped with state-of-the-art GaN** charging technology consisting of a new gallium nitride semiconductor material. Depending on the type of device being charged, **the charger selects the correct voltage and current according to the battery parameters**, protecting the battery from overheating.

It delivers a **maximum power of 30W** to mobile devices in an extremely short time and is **much more effective and energy-efficient** than traditional silicon chargers, generating significantly less heat. Which means that the cost of electricity consumption during charging will be much lower.

PRECISE ADJUSTMENT OF CHARGING PARAMETERS

Our charger can charge 2 devices at the same time , precisely setting the maximum voltage and amperage, adapting to the battery parameters of the connected equipment. This extremely functional device can charge a battery via the USB-C connection in just 30 minutes to around 60%, what's more, despite its high charging power, it does not heat up and is extremely efficient.

ULTRA-MODERN DESIGN AND SOLID CONSTRUCTION

Made with attention to every detail . The lightweight yet robust construction and compact dimensions , which are undoubtedly one of the greatest advantages of the product, guarantee convenience and comfort of use, while the universal colour and ultra-modern design further enhance the attractiveness of the charger. It is worth mentioning that the use of a single charger for several devices will not only save you money and space, but will also allow you to reduce the amount of electronic waste , which will undoubtedly have a positive impact on the environment.

YOUR SAFETY IS IMPORTANT TO US

Qoltec's GaN POWER PRO brand chargers are not only powerful, compact and fast, they are also safe, have a significantly lower failure rate, do not overheat and will not overcharge the battery - always adapting to the needs of the connected device. In addition, the high quality of the materials ensures complete safety in use.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. Each of the mains chargers we offer is covered by a 24-month guarantee valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	GaN
Maximum power	30W
Input voltage	220 - 240 V
Output voltage	5-20V
Output current	1.5-3A
Frequency	50 - 60 Hz
Maximum charging power	USB-C: 30W USB-A : 18W
Socket type	1xUSB typ C 1xUSB A
Usage	Smartphone Laptop Tablet Powerbank Wireless headphones Wireless speakers Portable gaming console Smartwatch
Safety	- against under- or over-voltage input, - against overcharge, - short circuit in the power supply circuit, - against overheating.
Additional information	Level VI
OTHER PARAMETERS	
Colour	Black
Dimensions (D/L x W x H)	40 x 80 x 28 mm
Package contents	1 x GaN POWER PRO charger
Package depth / length [mm]	33
Package width [mm]	80
Package height [mm]	143
Net weight [kg]	0,050
Gross weight [kg]	0,080
Warranty	24 month
EAN code	5901878523774
