

Qoltec PREMIUM hybrid glass screen protector for iPhone 13/13 PRO

Product code: 52122

Unbreakable hybrid glass is supposed to provide additional protection for the phone. Made of specially processed glass to protect the screen from damage and scratches and to effectively absorb each impact.

EFFECTIVE PROTECTION FOR YOUR PHONE

Unbreakable hybrid glass has been **designed for maximum protection of the smartphone display**. Qoltec glasses are the perfect choice for people who appreciate the quality of workmanship. Thanks to the use of **unique processing processes**, our glasses are extremely hard while maintaining optimal transparency. They will protect your phone against dirt, scratches, fingerprints and absorb every blow. The glasses have rounded corners and edges, they do not tarnish and do not reflect the sun, which ensures comfort of use. They have all the necessary holes that ensure the perfect fit of the glass to the device. Thanks to the use of extremely thin glass, the display does not change the properties of touch. **The set includes Qoltec hybrid glass, ideally suited to the size of the display**. To properly prepare the display for mounting the glass, two wipes were added to the set, wet to remove greasy stains from the display and dry to wipe it without leaving unnecessary particles.

RELIABLE AND DURABLE

Probably everyone of us has experienced that specific feeling of stress when a smartphone falls. Replacing a broken display is often more expensive than the phone itself or is simply not worth it. Bet on safety now and ensure the protection of your smartphone with hybrid glass from Qoltec. Our product offers:

-Surface hardness:

Using unique processing, our glasses are extremely hard. If your phone falls, they absorb the impact protecting your display from shattering.

-Scratch resistance:

Will protect your phone from dirt, scratches and absorb any impact.

-Oleophobic coating:

Prevents fingerprints, smudges and the accumulation of other dirt that is hard to remove.

-Ideal transparency:

Maintains transparency and color reproduction through a uniform structure that does not refract or distort light reflections, thus maintaining high touch sensitivity.

TRUST CONFIRMED BY WARRANTY

Do you care about the high quality of the product you buy? **Our solutions will meet your expectations**. The protective hybrid glasses we offer are covered by a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Model	iPhone 13/13 PRO
