

Qoltec Mount shelf for RACK | 490 * 250

Product code: 54472

Qoltec Mount shelf is the basis for the installation of electronic devices in 19-inch telecommunication cabinets.

WORKMANSHIP PRECISION

The shelf for installation in a rack is made of high-quality cold-rolled steel. Due to the fact that the sheet is perforated, it provides access to fresh air to the device and allows for the discharge of the heated air, which reduces the risk of faults and loss of system efficiency.

HIGH STRENGTH AND EASY INSTALLATION

The presented model is distinguished not only by the unique material from which it is made, but also reliable durability. When the load is evenly distributed over the entire surface of the shelf, its load capacity is as much as 20 kg. It is equipped with arms that enable mounting at 4 points in a rack cabinet.

TRUST CONFIRMED BY WARRANTY

Do you care about high quality of the product you buy? Our proposals will meet your expectations. Each of our shelves for Rack's cabinets is covered by 24 month warranty which is valid from the day of purchase.
