Qoltec Privacy filter 23" | 16:9 | Eye protection | Panoramic

Product code: 51057

The Qoltec privacy filter ensures the security of personal data and other important information so they are visible only to the person who is sitting in front of the screen. Additionally, it offers:
- the highest quality of the material,
- a wide range of products,
- **blue light filter**,
- anti-reflective coating,
- limitation of the viewing angle to 60 ,
- protection against scratches, dust and dirt,
- possibility of permanent or temporary installation.

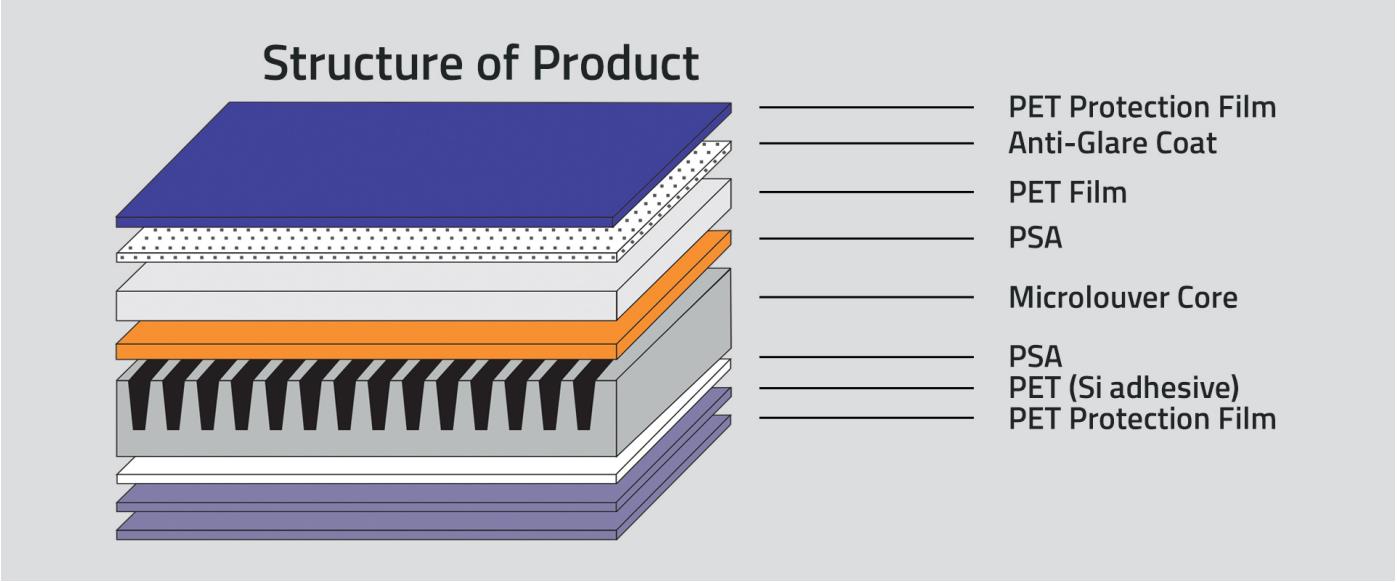
PRIVACY PROTECTION IN THE DIGITAL ERA

Privacy filter ensures protection of confidential data from unauthorized individuals

Qoltec's privacy filter serves as a shield for your privacy in the world of digital information storage. In today's times, where virtual threats are commonplace, **maintaining the security of personal data is crucial**. No one wants unauthorized individuals to have access to our information. Additionally, compliance with the General Data Protection Regulation **(GDPR)** is a matter not to be taken lightly.

That's why privacy filters have become an integral part of our electronic devices, providing us with **peace of mind and a sense of security** . They are suitable for **fieldwork, offices, financial institutions,** and many other places where confidential information is processed every day.

8-LAYER PROTECTION FOR PROCESSED DATA AND YOUR EYES



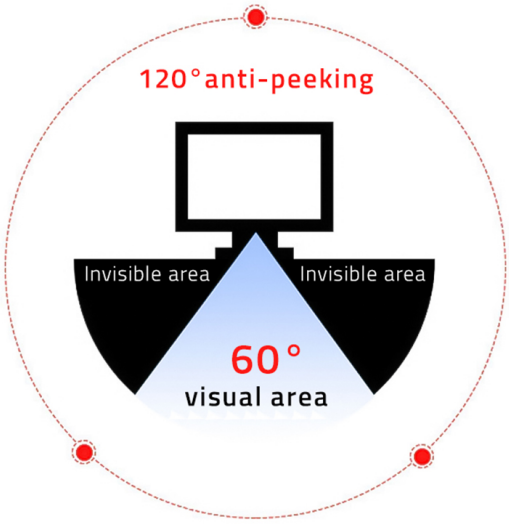
The filter consists of 8 layers, including blocking harmful radiation and privacy micro-blinds

How to encompass all the functions that, according to us, a privacy filter should fulfill in an **ultra-thin filter**? Thanks to the **8 layers** that our product is composed of, it can **simultaneously fulfill the main task, which is to protect your privacy, as well as protect your eyes from the harmful effects of radiation** from the laptop or computer screen. At the same time, it also ensures the highest possible image quality without distortion. The following paragraphs will provide more details about privacy filters.

INNOVATIVE TECHNOLOGY FOR YOUR PRIVACY

The front is clearly visible

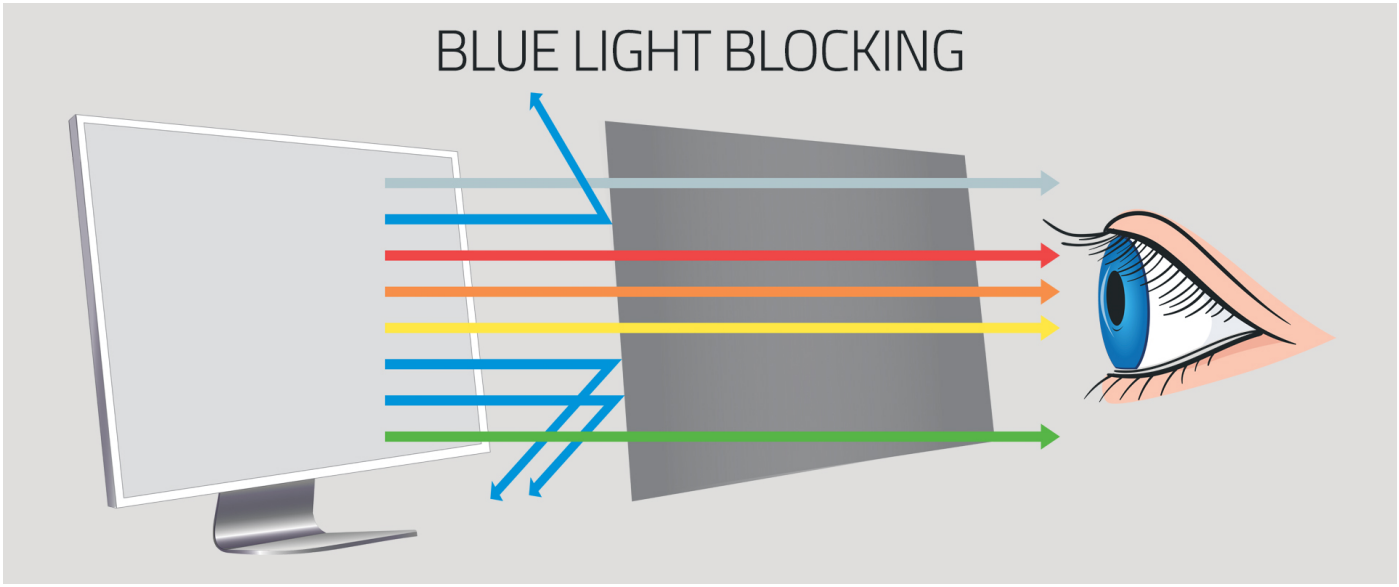
Side 60° peeping to protect privacy



Micro-louver technology ensures a narrow viewing angle

Qoltec's privacy filter harbors the secret of modern technology, providing reliable protection. By utilizing advanced **micro-louvers**, this filter ensures screen clarity from the front within a 60-degree angle, while preventing unwanted viewing from the sides. **Even at a slight viewing angle, the image becomes illegible** , and at a 30-degree angle, the screen completely darkens, guaranteeing protection of your privacy in any situation.

EYE PROTECTION AND SCREEN SECURITY



Qoltec filter ensures eye protection with Anti Blue Light and Anti Glare features

The GDPR filter is not just a privacy filter, but also a **protective shield for your eyes.** Prolonged computer use can be harmful to the eyes due to the radiation emitted by the screen. The Qoltec filter, with its **protection against harmful blue light**, reduces this radiation. As a result, it protects the eyes and improves sleep even after long hours of screen work.
Additionally, the privacy filter, with its **anti-glare properties**, significantly increases the comfort of computer use, reducing eye fatigue.

DURABILITY AND EASY INSTALLATION

Providing screen protection with high-quality materials

Made of LG's highest quality material, the Qoltec filter additionally **protects your screen from dirt, scratches, and fingerprints**. This filter is not only functional but also practical. Thanks to its simple and quick installation, **you can easily install the filter on your device** , choosing from two simple installation methods **-** clips attached to the monitor frame or transparent strips directly adhered to the screen.

CONFIDENCE CONFIRMED BY A WARRANTY

Product covered by a 24-month warranty

Do you value the quality of the product you purchase? **Our solutions will meet your expectations** . Each of our privacy filters comes with a **24-month warranty** effective from the date of purchase.
