

Qoltec Pure Sine Wave Inverter Monolith | battery charger | UPS | 600W | 1200W | 12V to 230V

Product code: 51941

Qoltec brand inverter with UPS function and battery charging with continuous power of 600W and sinusoidal waveform. It is ideal where there is no direct access to the power grid. The product has a built-in power socket compatible with European plugs, power cable, USB port, fan and LEDs indicating the operation of the device. It comes with a set of fuses and wires.

THREE FUNCTIONS IN ONE DEVICE

Qoltec brand inverter is a combination of functions :

- **12 volt to 230 volt inverter**, when connected to the battery, the inverter draws the necessary energy to power the connected device,
- **Battery charger**, when connected to the mains, the device automatically enters battery charging mode,
- **UPS**, when a power outage from the mains is detected, the device goes into emergency power mode, using the energy stored in the battery until the mains voltage is restored. **The inverter can charge the battery and power the connected devices at the same time.**

PURE SINE WAVE INVERTER

Qoltec brand inverter is a **pure sine wave** , produces the same current as a 230V socket , ensuring safety for all connected devices . Great for both during power outages , as well as during travel when we do not have access to an outlet .

When choosing a suitable inverter, it is **worth paying attention to the power value and voltage of the battery** , which must be consistent with that indicated on the inverter to ensure that our equipment has the right conditions for work. Also **important is the number of connected devices** , for example, connecting a laptop and a printer, the power of both devices should be added up. Remember that **the power consumed by the connected device should not exceed 85% of the rated power of the inverter**.

COMPATIBLE WITH ANY TYPE OF POWER SUPPLY

The product is ideal as a power source in **campers or trailers during family trips**. Are you planning a longer camping or lakeside vacation and looking for a way to plug in your laptop or charge your phone on the yacht ? It is worthwhile to be well prepared. With a Qoltec brand inverter, you will be able to power your devices anywhere and enjoy convenience and comfort. The voltage converter will be the ideal power source for **yacht and boat owners**. This smart device will allow you to power your equipment during long trips away from home, it has a USB port and power outlets to which you can plug electrical devices. Without any obstacles, you can charge your phone, laptop or connect any other device whose power does not exceed the power of the inverter, what's more, you can charge the battery at the same time.

Depending on the power consumed by the device, the inverter 600W can power :

- RTV equipment : TV, game console, music equipment, radio,
- Household appliances : refrigerator, fridge, microwave,
- Office equipment : computers, printers, laptops,
- Other : power tools.

The inverter can also be used not only on the go, but also as an emergency power source, such as backing up the CO furnace or to power equipment as a UPS during a temporary power outage from the power grid.

DURABLE AND LIGHTWEIGHT HOUSING

The case is designed from **high quality aluminum** that is resistant to **shock and mechanical damage**. It is an ideal choice for those who like to travel for long periods of time. Thanks to the inverter with built-in power socket, you can use almost any device that requires connection to the socket. The product has a **USB port** for charging mobile devices and a **fan** that takes care of proper cooling .

FULL GUARANTEE FOR SAFE USE

The product is equipped with a number of protections that guarantee full protection for connected devices. In addition, the kit includes a **spare fuse** to ensure the longest possible operation of the equipment.

The converter has : **UVP protection** - protects devices from too low voltage at the output, which affects the stability of connected devices, **SCP protection** - is a short circuit protection, **OVP protection** - is protection against too high output voltage and damage to connected devices, **OCP protection** - is protection against too high current on the line, **OTP protection** - is protection against overheating.

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you buy? Our solutions will meet your expectations. The product comes with a **24-month warranty** valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Rated Power	600 W
Peak power	1200 W (5 second)
Input voltage	12 V
Input Voltage Range	190 260 VAC
Input current	10 A
Output voltage	230 V 5%
Waveform	Pure sine wave
Wave From Distortion	THD<3%
Output current	15 A
Idle current	>0.6 A
Output frequency	50 Hz 0.5HZ
Efficiency	90 %
Constant voltage charging	15 A
Float charge	13.8 V
Constant current charging	14.6 VDC
Cooling system	Intelligent cooling
USB	5V/1A
Protection	LVP/OVP/OCP/OTP/SCP
Protection against inverse polarity	Fuse
Usage	No more than 600W . Check the power of the appliance before connecting it ! Kitchen appliances: refrigerator, freezer Office equipment: laptop, computer, printer Other: power tools, TV, games console, radio, music equipment, central heating cooker, etc.
Additional information	Do not cover the ventilation holes of the device Remember to connect the wires and polarity of the power supply voltage correctly ! Soft start function
OTHER PARAMETERS	
Material	Aluminium
Operating temperature	-10°C ~ +50°C
Storage temperature	-30°C ~ +70°C
Dimensions (D/L x W x H)	135 x 300 x 70 mm
Package contents	1 x Inverter 2 x Fuse 1 x Wires set 1 x Wiring wrench 1 x Warranty card 1 x Operating instructions
Package depth / length [mm]	180
Package width [mm]	350
Package height [mm]	90
Net weight [kg]	1.957
Gross weight [kg]	2.335
Certificate	CE
Warranty	24 month
EAN code	5901878519418
