

Qoltec Stand for laser scanners

Product code: 50859

Here is our holder for bar readers. Thanks to it, you will save time by scanning goods, and you will also protect your device against mechanical damage, which is much easier during manual use.

RUN EVEN MORE EFFICIENT

Do you run production or service and commercial facility? Maybe you are a warehouse? In each of these "you", you or your employees use a barcode scanner to improve work and find products among the assortment at your disposal. The Qoltec brand is intensely concerned with it, by correcting the long-awaited customers and even more required for them, therefore we have created this product for you.

SET READER AND SCAN

Thanks to the extremely plastic structure of the neck holding the handle, your scanner can remain in any position convenient for you, which will further speed up the barcode reading process. The device will also be safe and stable when you are not using it.

ROBUST DESIGN

The Qoltec tripod is made of high-quality material. The wide, plastic base can be attached to the ground with screws. A stable handle perfectly supports the reader in the position selected by the user, which is also due to a very flexible metal element connecting it to the base.
