

Qoltec Professional Thermal grease 1.42 W/m-K | 100g | White

Product code: 51634

Qoltec thermal grease is a product of the highest quality, which offers:
- high thermal conductivity,
- perfect insulation,
- high quality,
- easy application,
- efficiency

Ai enhanced

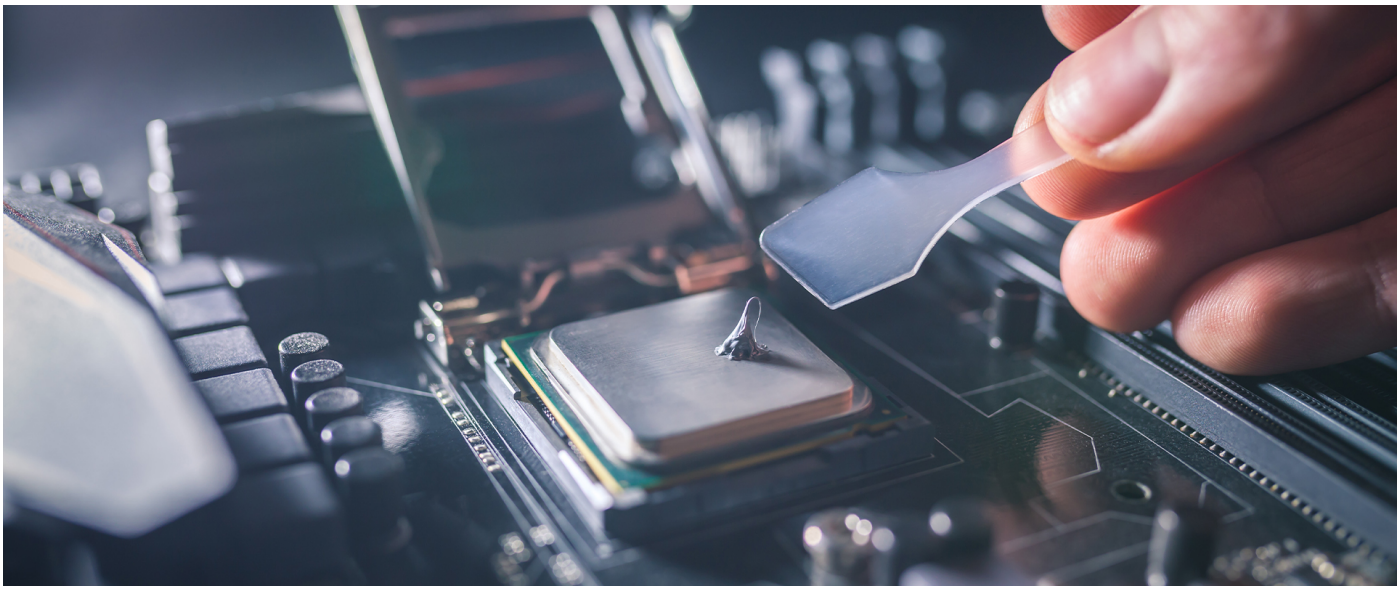

COOLING STARTS HERE

Improving the efficiency of the cooling system

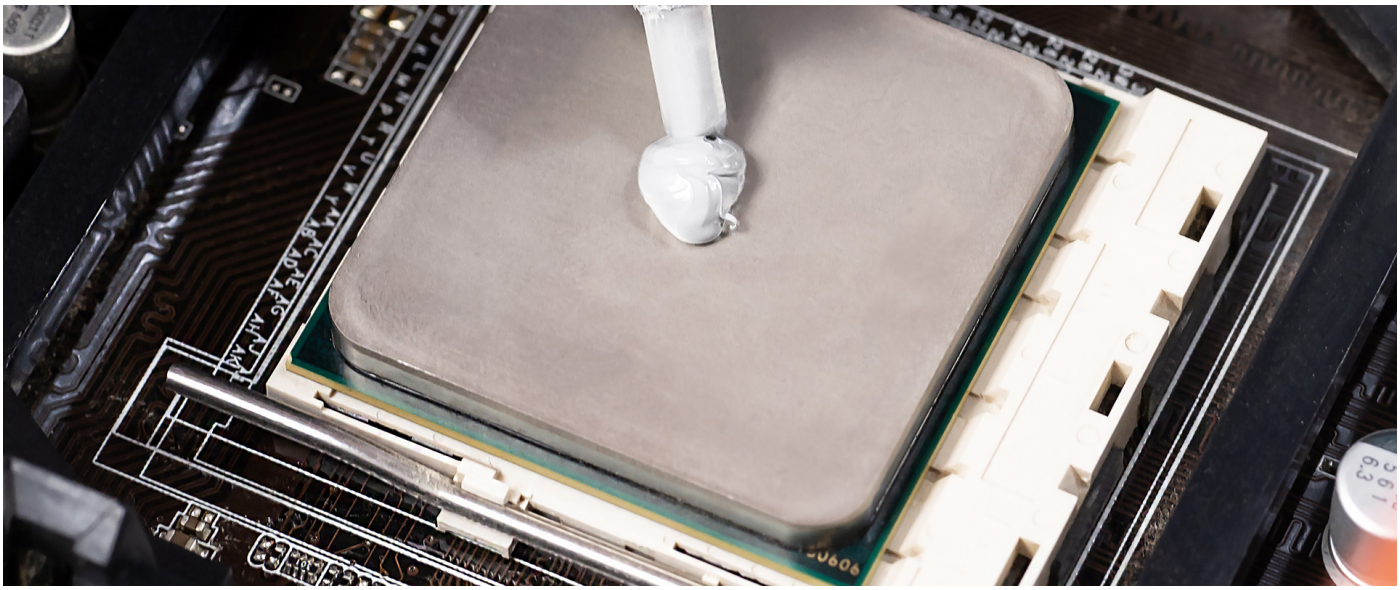

Do you dream of **a computer that runs reliably** ? That's exactly what Qoltec thermal pastes can offer you ! We offer a wide range of products that guarantee not only reliability, but also **a significant improvement in the cooling system's efficiency** . Our pastes come in a range of densities and thermal conductivities, giving you **the opportunity to choose the ideal solution** tailored to your needs. Thanks to Qoltec thermal pastes, your computer will run like clockwork, providing you with unrivalled performance and stability !

WHEN THE TEMPERATURE RISES, YOUR PC KEEPS ITS COOL

High Thermal Conductivity, Excellent Insulation, and Easy Application
Qoltec thermal paste is a top-quality product that offers:
- **high thermal conductivity** ensuring proper heat dissipation,
- **excellent insulation** preventing shorts on sensitive electronic components,
- **high quality:** the paste's properties do not degrade over time, ensuring stable operation for years,
- **easy application** allowing precise filling of all micro-gaps between individual components,
- **efficiency:** one package allows for replacing old paste in all necessary components of your computer or laptop.

KEEP IT COOL: TECHNIQUES FOR APPLYING THERMAL PASTE TO THE PROCESSOR

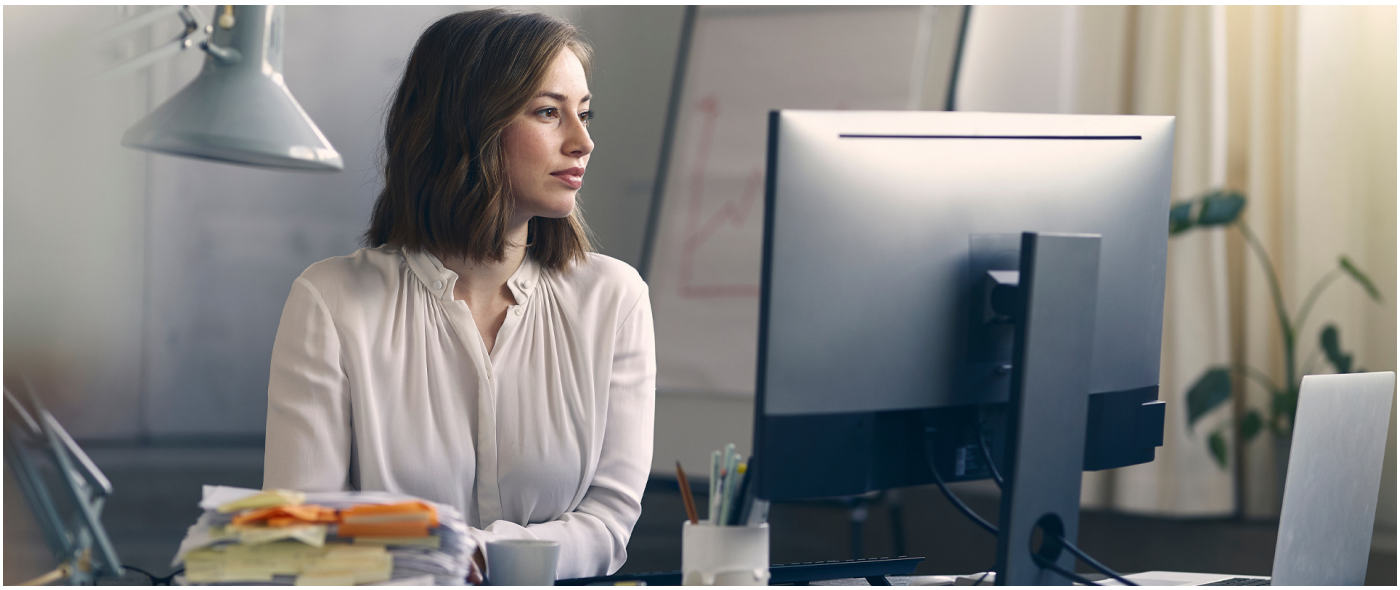

Even and precise application of paste is a key element of CPU cooling assembly

Applying thermal paste to the processor is a crucial step during cooling assembly. **Proper application of this paste is essential for effective heat dissipation from the CPU.** The best method is to apply a small amount of paste to the center of the processor, usually the size of a pea or rice grain, and then gently spread it using an applicator or a special finger cap to achieve an even layer. It is important not to use too much paste, which can lead to inefficient heat dissipation and increased CPU temperature. **Accuracy and moderation** are key to optimal CPU cooling.

TRUST CONFIRMED BY WARRANTY

Product Covered by 24-Month Warranty
Looking for high-quality products? **Our solutions will meet your expectations.** Each of our offered thermal paste solutions is covered by a 24-month warranty valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Thermal conductivity	1.42 W/m-K
Thermal resistance	< 0.249 C/W
Particle size	5 m
Specific gravity	2 g/cm
OTHER PARAMETERS	
Colour	White
Operating temperature	-30 C ~ 280
Dimensions (D/L x W x H)	40 x 157 x 24 mm
Package	Tube
Package contents	1 x Thermal grease 100g
Package depth / length [mm]	35
Package width [mm]	165
Package height [mm]	25
Net weight [kg]	0.1000
Gross weight [kg]	0.1160
Warranty	24 months
EAN code	5901878516349
